GB

EC-Norm for the safeguarding of toys

Dear customers,

The legislator stipulates that toys must comply with an EC standard and be marked with the „CE“ symbol.

Our items are mainly handicraft materials, i.e. starting materials. Thus, they are not subject to labelling and therefore do not have to comply with the strict regulations that apply to toys (e.g. danger from swallowing small parts such as wooden beads etc.). Please make parents and teachers aware of this issue.

Products that have not been tested and labelled, or products made from them, should generally be kept out of the hands of toddlers under 36 months. Children under age 14 should do handicrafts under adult supervision, by taking the general safety precautions (when it comes to knife, fork, scissors, light ...).

We wish all users many enjoyable hours of crafting and a lot of joy with the things they have made.

All items with a yellow mark are **novelties**.

The egg –

or how it turns into an Easter egg

Like every year, Easter heralds the arrival of spring. Even though the weather is still grey and it's still cool outside, the first colourful decorations move already into the house. Let's come out of hibernation! It's high time to get started on first Easter craft projects. And what's an inevitable part of Easter? The egg, of course! While the last spring catalogue focused on the Easter nest as a home for the egg, this year it's the egg, and more specifically the Easter egg, that is put into the limelight. The egg is the main symbol of resurrection, fresh starts and life - and that's why it has a special place in our world of crafts during Easter.

How to magically create special Easter eggs? Whether it is about a quick creation or an elaborate design, the most important thing is to do it yourself. Casting compounds are perfect for making special objects yourself, quickly and easily. Design is an undeniable plus, but is not compulsory. Objects cast out of pure concrete look great on the Easter table too.

All eyes on the Easter bunnies! Besides the Easter eggs, the Easter bunny family should not be missing either. Whether being cast or nicely designed in the form of wooden motifs, cute bunnies constitute an integral part of Easter.

And what materials should be considered? Wood, moss and many other natural materials are ideal for natural, springtime Easter decorations. They bring a great sense of serenity and nature into the home, while reminding us to appreciate its existence. Easter decorations made from natural materials are one-of-a-kind and add a touch of originality.

IN THE SPOTLIGHT

The Easter bunny family

The cute little bunnies delight us and, like the egg, are an integral part of Easter. Every year, children and adults alike eagerly await the visit of the Easter bunny family. Easter bunny fans are just waiting for the chance to immerse themselves in the fantastic world of bunnies and let their hair down. And thanks to our wide range of products for designing bunnies, there's something for everyone,

whether you're a beginner or an experienced DIY enthusiast. The products are very easy to use and bring lots of Easter fun. Would you like to spend special moments crafting with family and friends? No problem! Crafting together has its own special charm. And one thing is for sure - each family of Easter bunnies will be unique and hold a very special place in your heart.

MATERIALITY

Natural & simple

Easter is the time when nature wakes up from its winter slumber and flourishes in all its splendour. Easter gives the go-ahead to the spring, so it is safe to say that natural materials deserve to be in the spotlight at this particular time. Wood, a material with a unique and warm character, is a symbol of durability and naturalness. Wooden decorations are easy to make and add a rustic touch to Easter.

Moss, a living component of nature, also plays a major role in Easter decorations. It gives a feeling of freshness and brings Easter arrangements to life. Whether used as a base for Easter eggs or as a decorative element in Easter bowls, the moss brings a touch of the forest into the home and adds natural charm to the ambience.

It's all about Easter bunny family

The **Easter bunny family** provides this Easter with its own very individual character and comes in all shapes and materials. It invites you to create a cheerful and lovely **Easter atmosphere**.

PET casting mould Bunny

Motif: 12.3x6.8cm, depth up to 1.8cm

Exclusive
by Rayher

- **Versatile casting mould** made of PET
- Clear, dimensionally stable material
- **Reusable**
- Heat-resistant (up to about 60°C)
- Ideal for casting with **creative-cement** & **creative-cement 5-in-1**, **decorative concrete**, **Raysin**, **sidewalk chalk** and **soap**

Application tips:

- Depending on the casting material, grease the moulds with a household edible oil before casting – for **easy demoulding** and **maintenance of the mould**
- The moulds can be poured at **different heights**: low for filigree pendants and high for decorative stand-up displays
- **Labels of Rayher** are perfectly matched to the size of the moulds

36 136 000 (5)

Silicone casting mould "Happy Egg"

14.5x26x2cm, 4 moulds, box 1pc

für · pour · for
4

- **Casting mould** made of high-quality **silicone**
- Particularly elastic and robust material
- **Reusable**
- Frost- and heat-resistant (from -40°C up to 240°C)
- Very easy to demould and dimensionally stable
- Ideal for casting with **Raysin**, **creative-concrete**, **cast resin** and **wax**

Tips for application:

- It can be moulded as a **napkin ring** or **egg cup** (with a hole in the middle), or with a moulded base to be used as **Easter candle holder** – ideal for **personalised** and **diversified table decoration**, while casting with **just one casting mould**!
- Casting mould can be poured to different height levels

36 137 000 (5)
Silicone casting mould "Happy Spring"
14.5x26x1cm, 8 moulds, box 1pc

- **Casting mould** made of high-quality **silicone**
- Particularly elastic and robust material
- **Reusable**
- Frost- and heat-resistant (from -40°C up to 240°C)
- Very easy to demould and dimensionally stable
- Ideal for casting with **Resin**, **creative-concrete**, **cast resin** and **wax**

Tips for application:

- It can be poured to different height levels

36 114 000 (5)

Silicone cast.mould Easter friends + bees
26x14.5x1cm, 6 moulds, box 1pc

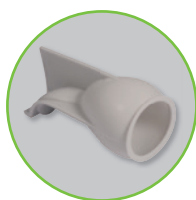

- **Casting mould** made of high-quality **silicone**
- Particularly elastic material
- **Reusable**
- Frost- and heat-resistant (from -40°C up to 240°C)
- Very easy to demould and dimensionally stable
- Ideal for casting with **creative-concrete**, **decorative concrete**, **Raysin**, **cast resin** and **wax**

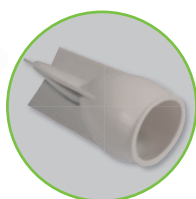

Application tip:

- The moulds can be filled in at **different height levels**: at low level for filigree pendants/figurines and high level for decorative display

 
36 151 000 (6)
Silicone casting mould Bunnies
ø 4.2 cm, height 9.4cm, box 1pc

 
36 152 000 (6)
Silicone casting mould Rabbit
ø 5.2cm, height 12 cm, box 1pc

- **Casting mould** made of high-quality **silicone**
- Particularly elastic and robust material
- **Reusable**
- Frost- and heat-resistant (from -40°C up to 240°C)
- Very easy to demould and dimensionally stable
- Ideal for casting with **Raysin**, **creative-concrete**, **cast resin** and **wax**

- **Raysin** is a pure white casting compound providing an **ultra-matt surface** with a **smooth visual effect**
- Air-hardening, odourless and food-safe
- Suitable for casting moulds made of plastic (PET, LDPE etc.), latex, silicone and rubber
- The cast item can be **demoulded after about 30 minutes**, completely dry after a few days (depending on the size of the casting)

- **Raysin 100**: good tensile strength (120 N/mm²), suitable for **smaller items** such as decorative pendants or figurines
- **Raysin 200**: high tensile strength (200 N/mm²), perfect for **larger castings** such as embossed items, figurines, decorative tiles, tesserae and ornaments

Easter is a part of nature

The nature awakens from its hibernation. The greenery around us is slowly regaining its spring green colour. It goes without saying that **Easter materials also retain their natural appearance**: wood, moss, jute ribbons, natural decorative twigs and feathers are the basic materials that inspire you to make Easter handicrafts.

Wholeheartedly –

or how to make the beautiful moments precious

Say a heartfelt THANK YOU to your dearest friend, make your kind neighbour happy heartily. There are plenty of good reasons for using hearts – all year round. Hearts can be used to express affinity and affection. Hearts are timeless and have the potential to enhance a simple gesture of love. They are the perfect way to make a special moment unforgettable or to honour an important relationship. And not only romantic relationships, but also friendly relationships will remain etched in the memories of those concerned.

And what about giving little presents straight from the heart, from time to time? Hearts are not only intended for a Valentine's Day. Mother's Day is just around the corner and a special surprise should be anticipated. A wedding in the offing? Great! The perfect opportunity to put hearts in the spotlight. A customised heart-shaped gift not only expresses love, but also the esteem in which the gift recipient is held.

It has never been easier to give gifts adorned with hearts to mark the special occasion in style.

Three heart-shaped goals

- 1.** Keeping memories alive: How some of your most beautiful moments can be captured forever and marked with hearts?
- 2.** A sign of affection: To show someone you care: „Thank God you exist!“ – the choice is huge
- 3.** Giving wholeheartedly: The various hearts can be quickly and easily turned into small presents.

KEEPING MEMORIES ALIVE

Precious moments – kept in mind forever

We all need to remember precious moments. How can we make sure we don't forget them? By finding an effective way of keeping track of an important event or a precious moment. A wooden frame with double acrylic glass panes, for

example, is a great option to make one-of-a-kind guestbook. The guests need only to insert a small wooden heart with a kind short message between the two glass panes.

A SIGN OF AFFECTION

„It's because I like you that I want to give you something I made myself!"

Showing your affection to a loved one with the heart symbol is easy. And if the heart is designed by you, the feeling becomes even more intense. In return, you'll get a dazzling smile, sparkling glance and a sincere Thank You.

You couldn't ask for a better outcome than that. And all this will motivate you even more to be creative. Small tokens of appreciation that come from the heart – self-made, it goes without saying – speak for themselves.

GIVING GIFTS

From the heart all the best

Nothing is more rewarding than birthday gifts given straight from the heart, especially to the dearest ones. So what could be nicer than a gift adorned with hearts. Those tiny symbols of love and devotion provide the gift with a

special personal touch and make it unique. Whether it's a stamp with a heart motif or a small heart-shaped tag on a nicely wrapped gift, hearts are always welcomed.

Preserving precious moments for all eternity

A guestbook in which everyone can leave their mark is a great way to **keep alive the memory** of a special day. For very important moments, it can be made even more original: our guestbook consists of a wooden frame and two acrylic glass panes into which individual wooden hearts inscribed with the names of all the guests can be inserted. What a lovely keepsake!

Good Vibes –

or how we gather strength and inner peace

We all crave for opportunities for retreat and regeneration, for places where we can recharge our batteries. We create periodic feel-good oasis and places for relaxing - this is how we tap into new sources of energy to overcome the challenges of everyday life. This allows us to concentrate on the essentials, to be aware of our own creative power and the various design possibilities. These are all things that provide personal connection, harmony and vital energy.

How can we maintain a positive mood in our often hectic and demanding daily lives?

Self-made items and DIY contribute to the positive mood: do-it-yourself, crafting and being creative restore inner peace, because creativity becomes the focus of our attention. The creative flow increases our feelings of happiness. Giving a self-made gift to a particularly dear person shows just how much that person means to you. Joy and gratitude - and thus a positive mood - are bound to occur.

The „Good Vibes“ catalogue topic lives up to its name: it's a topic of well-being, with products linked to yoga, meditation and light energy, all of which bring positive energy.

Symbols and colours bring „Good Vibes“

- 1.** Symbols and expressions: whether it's the „Flower of life“, the lotus flower, Buddha or the word „Namasté“ - everything is related to positive energy and the expressions evoke inner peace and serenity.
- 2.** A colourful sense of joy and light energy: the colours of the rainbow, also known as „chakra colours“, are at the forefront and the basis of the colour scheme. Positive light energy, expressed through a soft candlelight, also contributes to the sense of well-being.

SYMBOLS AND EXPRESSIONS

Anything in connection with positive energy

Namasté is a salutation and greeting word that reflects respect and honour given to the other person. This word also has a spiritual meaning: “My soul recognises your soul” or „I bow to the divine in you“. In other words, we appreciate their value as human beings.

The Flower of Life as a symbol is an elaborately designed ornament and a zen icon that represents perfect harmony and interconnectedness of all life. It is perfectly in line with „Good Vibes“ – by bringing positive thoughts and attracting positive energy.

A COLOURFUL SENSE OF JOY AND LIGHT ENERGY

Pleasant atmosphere through the magic of colours

Light and colour are the expression of joy and vitality. The colours of the rainbow are the basis for the colour scheme, each of which having its own meaning and bringing its own unique appeal.

As for the colours of the rainbow, it is obvious that here you will also find products that softly trap the sunlight and reflect the light falling in all the colours of the rainbow - on the walls and the windows.

What brings positive energy?

Whether it is about decorative elements with „Balance“ and „Namasté“ lettering, the „Flower of Life“ or Buddha figurines to be moulded – the **positive impacts** are noticeable in all products.

Stamp pad "Versacraft"
stamping area 2.5x2.5cm
black

Acid free

- High coverage, lightfast, slow-drying stamping ink
- Water-based
- Suitable for a variety of materials: fabric, leather, wood, paper, Raysin and creative-cement
- Stamp pad area: 2.5 x 2.5cm

Tips for its application:

- When using on fabric (e.g. cotton and linen), fix it with the iron by placing the fabric between the stamp and the iron
- Washable at 30°C after fusing

28 606 00 (10)
Acrylic stamp block
5x8x0.8cm, tab-bag 1 pc

- Acrylic block for silicone and rubber stamps
- Absolutely transparent: for stamping with pinpoint accuracy

34 447 000 (4)
Latex full casting-mould: Buddha
6.5x12.5cm, tab-bag 1pc

- **Full-form mould** made of **elastic latex**
- Thin yet very solid and flexible material
- **Reusable**
- For filling material heat-resistant up to about 60°C
- Can be easily demoulded
- Perfect for casting with Raysin, creative-concrete, wax and soap

Application tips:

- Hang the mould onto the **holder for latex casting moulds** (item no. 34 478 505)
- To avoid formation of air bubbles, pour in the casting compound slowly and gently tap or shake the cast mould (so that the air bubbles rise to the top)
- Before demoulding, let the casting compound dry and harden well out
- Rinse the mould with fresh water after use and remove the casting compound residues thoroughly

34 478 505 (4)
Holder for latex moulds, FSC Mix Credit
2-part for ø 7.7cm + 5cm, tab-bag 2pcs
natural

The mark of
responsible forestry

- **Holder for latex full-form moulds** made of **sturdy birch plywood**
- Facilitates the casting with latex casting moulds
- Diameter of the casting mould opening: approx. 7.7cm + 5cm

Tips for application:

- Hang the casting mould with holder on a **container filled with water**
- Casting compound can thus be optimally poured in and cure **contact-free**

Batik hand-dyeing paint

- Coloured powder for **dyeing without boiling** (at approx. 40 - 50°C)
- **Light-fast, brilliant and strong colour shades**
- Perfect for dyeing white fabrics: cotton, linen, silk or untreated cotton cloth
- 10g are sufficient for approx. 125 - 250g of fabric
- Dyed fabrics are washable at 30°C

Application tips:

- The dyeing result depends on the concentration of the dye bath, the duration of dyeing, the type and the quantity of fabric
- The **colour-fixer** (item no. 35 020 000) improves the wash resistance and colour brilliance

35 020 000 (6)
Fixing agent f.batik hand-dye paint
in glass jars, tab-bag 25ml

- To improve the wash resistance up to 30°C
- For use after dyeing with Rayher's Batik hand-dyeing paint (item no. 35 019 ...)

TUBE IT –

or how test tubes become decorative elements

A look like a lab at home? As far as we're concerned, absolutely! As well as being essential elements in scientific research, test tubes are also great as decorative elements. Thanks to their simple appearance, they can be transformed and perfectly adapted to existing decorations. Risk of breaking? Virtually impossible! These test tubes are made of a solid acrylic material.

Combinable with many trend materials.

Whether in combination with a classic metal ring or with natural raw wood, the test tubes quickly turn into decorative eye-catchers.

As miniature flower vases, the test tubes are as changeable as a chameleon. They are suitable for long-lasting dried flowers as well as for fresh flowers acting as first harbingers of spring.

Or how about combining them with candles? They are not only suitable for self-cast vases, but also for taper candles.

Once combined together, they become a subtle decoration that contributes to a feeling of well-being. Speaking of subtle: we have opted for an unostentatious test tube colour scheme: black, white and natural colour shades - this sober colour concept ensures an atmosphere of quiet contentment... and quite incidentally, the design concept „Tube It“ can be combined with almost all interior styles. A perfect way to decorate not only your own home, but also as a gift for that of someone close to your heart.

In two simple steps to impressive home decor

- 1.** Creating the perfect base for the test tubes: With wood, metal rings or vases made of Raysin or concrete? The combination possibilities with test tubes are vast.
- 2.** Adding decorative highlights: With candles, dried flowers or fresh cut flowers? Or with classic wood picks? Your customers are spoilt for choice.

PREREQUISITE

Creating a favourable environment for the test tube

How should the test tube be presented? In what environment it should be embedded? Wood and metal rings are a perfect match for a material such as acrylic. But also the casting powder Raysin – available in the tried-and-tested pure white colour or the brand-new jet-black colour – provides a harmonious outer finishing in the form of a cast

flower vase. The ready-made vases can be optimally combined with the test tubes.

The clear design idiom and the unostentatious colour concept – black, white, natural colour shades – create a contemplative atmosphere and ensure cosiness.

SPECIAL HIGHLIGHTS

Design at will

Fresh tulips as first harbingers of spring? Or rather dried flowers for a magical, long-lasting decoration? The test tubes can also be enhanced with self-designed candles. There are innumerable possibilities for exhibiting the test

tubes in a contemporary way. And they can be designed to suit everyone. And the best is yet to come: this home decor trend can be quickly and easily implemented. The outcome is an impressive virtuosity.

Create a beautiful frame

Whether displayed in a **wooden holder** or inside a **vase cast with black or white Raysin**: test tubes made of acrylic material are as changeable as a chameleon. An important decision has to be made now: Where might the test tube reveal itself most?

- Raysin in black – consists of natural calcium sulphate and black pigment
- Casting compound with a jet-black ultra-matt surface and velvety texture
- Ultra Strong: high bending strength (250 N/mm²) for large and very large castings
- Combinable with the white Raysin 100 + 200
- Air-curing, easy to work with, odourless and food-safe
- Optimum flowability
- Suitable for casting moulds made of plastic (PET, LDPE etc.), latex, silicone and rubber
- Can be easily demoulded after about 30 minutes (completely dry after a few days, depending on the size of the cast item)
- Also great for casting with children

Paints

Paint – in a new light

We have provided our paint scheme with a new lick of paint - for you alone! So that we can offer you even more in the way of paints in the future.

OUR PAINT SCHEME ⊕ ITS MEANING:

- ⊕ Streamlined, space- and sales-optimised paint scheme
- ⊕ We only have the paints that are really relevant
- ⊕ We develop sales-boosting paint trends
- ⊕ And your profit in all this: more sales per sqm

Our experts in this field only include convincing paint ranges in our programme which are based on reliable sales and market research data. Our main focus is on a coordinated world of colour shades, updated paint trends and basics, and above all on their application. This makes room on your shelves for many other creative products of Rayher, such as products made of wood and papier-mâché or the trendy casting compounds Raysin, concrete and much more... and at last, but not least, more sales per sqm.

+++++

The „add-on ⊕“: Sustainability

Times are changing! The topic of sustainability comes to the fore even more within our company philosophy. Our new competent EU partners in the paint industry committed themselves to monitor sustainability at all levels: from raw materials to production and packaging. Short transportation routes are not only good for the environment, but also guarantee rapid delivery and binding delivery times. This means we are able to meet exactly all your needs while ensuring the highest quality. Our partners in the paint industry dispose of their own laboratories and mix all colours themselves, which ensures continuous and consistent quality level.

Paints for all craft application possibilities

A weather-resistant paint for the pinkish garden gnome, a saliva-proof All-purpose paint for a colourful decoration in the children's room, a bright shimmering paint for the shiny metallic look on a bowl made of concrete or the machine-washable fabric paint for a self-designed bag in the hip street style ...

... with us the user has the choice - but not the agony!

Textile fabric paint

- Bright, creamy, water-based fabric paint
- Suitable for light-coloured fabrics (cotton, linen and blended fabric up to 50% cotton content)
- Soft-to-the-touch feel, pleasant surface texture, well miscible
- Ideal for application with paintbrushes, stamps and for stencilling
- Machine washable without thermosetting (up to 40°C)

Tips for application:

- Prior to painting, pre-wash the fabric without using a fabric softener
- Shake well the fabric paint can before use
- Painted fabrics can be washed after drying (min. 24 hrs)
- Wash the painted item inside out with a mild detergent at 40°C max., without using a fabric softener
- Not suitable for tumble dryer
- Protect the paint cans from frost

ENVIRONMENTALLY FRIENDLY PRODUCTION

CO₂- Compensation

Producing the Rayher catalogue all CO₂ emissions produced in the course of printing and processing are determined. By making an equal investment in a climate project according to the Gold Standard, the corresponding CO₂ emissions will be saved in the future and the Rayher catalogue will be CO₂ compensated this way.

Please note that in a few cases, some colours shown in our catalogue may differ from the original ones due to printing reasons.
