GB

EC-Norm for the safeguarding of toys

Dear customers,

The legislator stipulates that toys must comply with an EC standard and be marked with the „CE“ symbol.

Our items are mainly handicraft materials, i.e. starting materials. Thus, they are not subject to labelling and therefore do not have to comply with the strict regulations that apply to toys (e.g. danger from swallowing small parts such as wooden beads etc.). Please make parents and teachers aware of this issue.

Products that have not been tested and labelled, or products made from them, should generally be kept out of the hands of toddlers under 36 months. Children under age 14 should do handicrafts under adult supervision, by taking the general safety precautions (when it comes to knife, fork, scissors, light ...).

We wish all users many enjoyable hours of crafting and a lot of joy with the things they have made.

All items with a yellow mark are **novelties**.

Give a shelter to the eggs

It's no more that far away, that nature shakes off the winter. We are witnessing the end of the cold weather and the bleak gray sky. Finally! Easter represents for many the arrival of spring. After all, the Easter egg stands as a symbol of life and, in the Christian sense, of resurrection.

And what would Easter be without eggs and Easter nest? Inconceivable for most people. No matter if the Easter nests are given as gifts to beloved ones or used as your own spring decoration: decorating, marbling or painting colourfully Easter eggs is one of the favourite activities in springtime and during the Eastertide. Once the eggs have been painted and the outstanding works of art have emerged, the following questions arise: What is the best way to display these beautiful eggs? Where do they fit in at best? One thing is self-evident: a soft "bed" is a must – a true home is required!

In three simple steps, your customers can create a nice cosy home for their Easter eggs:

- 1.** Preparing the base: Eggs left in their natural state, made of robust wood or in soft cotton wool? What material is the most suitable one for shaping the nest?
- 2.** Choosing the right wadding: Iceland moss or paper grass? What is the egg most comfortable in?
- 3.** Creating beautiful highlights: What is needed to put the Easter nest into the limelight?

1

BASIS

Creating the appropriate “outer wall” for the egg

To make the Easter egg feel at home, the “outer walls” must be well chosen. So the first step is to design the perfect outer shell. From a few basic materials - such as here a plaster bandage and a wood slice - you can create the base for the cosy home of the Easter eggs.

+

2

WADDING

Cosy, cosier, the cosiest

To ensure that the Easter eggs feel really cosy in their nest, it is important to choose the right wadding. Moss is classic and irreplaceable material in terms of cosiness. Our Iceland moss is a natural decorative material that is particularly soft and bouffant. In this respect: “As you make your bed, so you must lie on it!” – and that also applies to the Easter eggs.

+

3

HIGHLIGHTS

Fancy a few eye-catchers?

With a minimum effort – as is the case here with All-purpose paint and our convenient sponge stamps – the final step is to once again emphasise the personal look. With the appropriate adornment, the Easter nest is enhanced to suit your preferences in taste, colour and decoration.

>> Pages from 16 to 25

Creating a home for the Easter egg

To make the Easter egg feel comfortable in its new home, the „outer wall“ plays a key role – as is often the case. Paper cups, chip boxes or a crocheted Easter basket could serve as a **nest base**. Finding the optimal **outer cover** would be the first decision to make.

Homeliness for Easter eggs

To make the **Easter eggs feel cosy**, the nests can be enhanced with decorative moss, green synthetic grass, twigs or decorative grass made of paper, because the following also applies to Easter eggs: As you make your bed, so you must lie on it. Everything that serves as decorative **filler material** is illustrated on the next pages.

The right adornment makes the whole difference

The coating and the inner parts have been chosen. The priority now is to add just the right **highlights** to **home interiors**. What material should the Easter eggs be made of? What would be the best option: fresh chicken eggs, eggs made of wadding or wood? What colour should they be? Which decorative elements, e.g. feathers or decorative shapes to scatter, best suit the Easter nest?

Egg dye set with 5 colours

Food-safe dyes
coloured

- Egg dye set with 5 different colours to cook – egg colouring made easy
- **Gluten-free food colouring** (subject to the strict operating controls) **made in EU**
- Suitable for both brown and white eggs
- 1 g of colour powder per each colour (yellow, orange, red, blue + green)
- Each colour is **sufficient for about 6 – 8 eggs** (depending on the egg size)

Application tips:

- Boil the eggs, dissolve the desired egg dye in 125ml of hot water, add a tablespoon of vinegar
- Immerse the warm eggs in the dye solution for about 3 – 4 minutes, then let them dry on a paper towel
- Coat the dyed eggs with little grease (e.g. cooking oil) to get a **nice shine**
- **Notice:** if some dye penetrates through the egg shell, it is **absolutely harmless to health**

Let the candles speak for themselves

Candles emit warmth, twinkling light and comfort. Candles provide rooms with an immediate sensation of well-being. And not just during the cold season. But the candles are a lot more than that. They are part of individual and modern decoration ideas, and great for transmitting messages.

Sometimes you just want to say a warm “Thank You” to a dear person. And if you find that chocolates or flowers are not original enough as a thank-you, here is an out-of-the-ordinary solution: candles transmitting special messages! And your own home can also be beautified with individual candle decorations. Simply add your favourite statement to the candle and present it in a stylish and modern way – thus your plain candle turned into a true eye-catcher.

Your customers can create their very own candle magic in only three steps:

- 1.** Basis for the candle design: Which candle shape to choose? Would it be good to cast them oneself? Choosing colour gradients to match the style of the interior decoration?
- 2.** Transmitting messages: What would I like to express with the candle? What are my favourite sayings? How to apply the message onto the candle?
- 3.** Give it away or keep it? Who do I want to please with the candle? Would I like to create a candle decoration for my own home?

1

DESIGNING

Spicing up the candle base

White candles are perfect for making individual candles. They are also the ideal basis for the trendy “candle dipping”. The first thing to be done is to choose your favourite colour from the colourful pigments intended for wax or you can even make a colour mix. Then dip the white candles in it – just the way you like it. And the final result? One-of-a-kind colour gradient.

>> Pages from 32 to 37

2

MESSAGES

Express yourself through candles

Whether it is about a simple “Thank You” or whether you opt for favourite motifs like hearts: conveying messages on candles is exceptional. Thanks to our wide assortment, it is an easy thing to do. The transfer foils – already printed or to be printed on its own – simply have to be applied onto the candles. No worries, the candles can still be lit.

>> Pages from 38 to 41

3

GIVING AWAY OR KEEPING

Spoilt for choice

To give as a gift to a loved one or keep for interior decoration? Not so easy to decide at all. And pretty cords, punched gift tags and great wooden presentation boxes do not make the decision any easier. Wherever those customised candles end up, they will be an eye-catching interior decoration.

>> Pages from 42 to 53

Individually designed candles

Whether by using **ready-made candles** or by implementing **self-cast candles** made of wax pellets: the **further personal design** matters. With numerous different colour pigments for wax, candles can be dipped and thus become exceptional one-of-a-kind decorative items.

Silicone casting mould Candle holder
f. tealights & tapered candles, ø52x71mm

- **Casting mould** made of high-quality **silicone**
- Particularly elastic and stable material
- **Reusable**
- Frost- and heat-resistant (from -40°C up to 240°C)
- Very easy to demould and dimensionally stable
- Perfectly suitable for casting with **creative-cement**, **Raysin** and **casting resin**

Application tips:

- Candle holder suitable for **common tealights** and **taper candles**
- Can be poured out to **different heights**

36 125 000 (5)

Silicone casting mould Round coaster

ø 17cm x 2.1cm

Application tip:

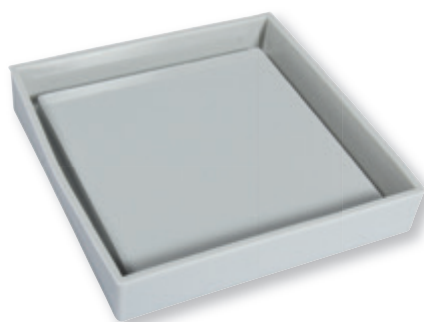

- When it comes to **heavy-weight casting material** (e.g. creative-cement), **put** the casting mould **on sand** during casting and curing so that its in-between spaces are stabilised from below and its bottom part does not warp

36 126 000 (8)

Silicone casting mould Oval coaster

17.8x9.5x1.6cm

36 127 000 (8)

Silicone mould Square-shaped coaster

10x10x1.5cm

- **Casting mould** made of high-quality **silicone**
- Particularly elastic and stable material
- **Reusable**
- Frost- and heat-resistant (from -40°C up to 240°C)
- Very easy to demould and dimensionally stable
- Perfectly suitable for casting with **creative-cement**, **Raysin** and **casting resin**

1 wet-sandpaper (P220)
1 wet-sandpaper (P120)
Instructions

36 128 000 (3)

PET Casting mould Decorat.plate Square

25x25x2cm, rim 1.3 cm wide

- Versatile casting mould made of PET
- Clear, dimensionally stable material
- Reusable
- Heat-resistant (up to about 60°C)
- Ideal for casting with **creative-cement** & **creative-cement 5-in-1**, decorative concrete, Raysin, sidewalk chalk and soap

Application tips:

- Depending on the casting material, grease the moulds with a household edible oil before casting – for **easy demoulding** and **maintenance of the mould**
- The moulds can be poured at **different heights**: low for filigree pendants and high for decorative stand-up displays
- Labels of Rayher are perfectly matched to the size of the moulds

36 120 000 (3)

Casting mould set Bowls L

5 acrylic half-balls: ø 6-14cm

Dimensions: 14cm, 12cm, 10cm, 8cm + 6cm

- **Casting mould set** with **acrylic half-balls** out of **transparent, hard plastic**
- Ideal for **casting semi-spherical bowls** out of creative-cement or Raysin casting powder
- Reusable
- **Inspirational instructions** are included

Application tips:

- Half-balls can be cast into each other and combined in many different ways
- After demoulding, clean them with water and a bit of dishwashing detergent

35 050 000 (6)

Chalky ultra-matt lacquer

Tin 100ml

- **Ultra-matt protective lacquer** for **Chalky paints** and **water-based paints**
- Ideal for **permanent sealing**: protects the paint application and makes it **weather-resistant**
- The surface gets an **ultra-matt appearance**
- Sturdy, well adhering, abrasion-resistant
- Suitable for use on **various surfaces**: wood, concrete, plaster, paper, papier-mâché, canvas, terracotta, styrofoam, stone

Say it with flowers

Flowers are the beautiful hieroglyphics of nature with which she indicates how much she loves us.

(Johann Wolfgang von Goethe)

And he is absolutely right: the nature shows us all of its splendour when we stroll through a meadow of flowers. The nature quiets our senses and pacifies our soul by breathing in the meadow-scent and enjoying its vibrant colours. We have now the great opportunity to capture this floral splendour with dried flowers and embellish our own home with it. And not only during the summer, but throughout the whole year. Whether you want to give a dried flower arrangement as a present to your dearest friend, decorate your own four walls with it or implement unique decoration ideas related to dried flowers at a wedding party – by following our few basic steps, your modern dried flower project turns into reality.

It takes only three simple steps to bring the splendour of nature into your home:

- 1.** Dried treasures: Elegant Gypsophila or bright sea lavender? Subtle hare's-tail grass or rather persian wheat? Our broad range leaves no wishes unfulfilled.
- 2.** Displaying in a variety of ways: Wooden stand or bamboo rings? Or rather the classic metal ring? The dried flowers can be perfectly staged regardless of the chosen mount.
- 3.** The special attention-getter: The highlights can be set up quite individually to emphasize the unobtrusive originality and personality of the creator.

1

DRIED TREASURES

Natural, unique, modern

Nature is as individual as life, because no two plants are identical and each one is unique. In the same way, each of us is unique. This uniqueness makes up a decoration's appearance and can also be expressed through original decoration ideas linked to our various dried flowers. Dried plant treasures form the basis.

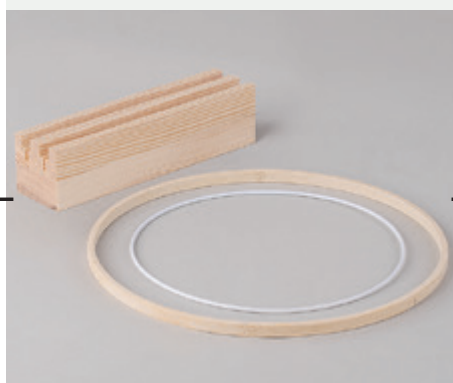

>> Pages from 60 to 64

2

SHOWCASING STYLISHLY

Matching mounts

The favourite plants have been chosen. The aim is now to show the dried treasures off to best advantage. Where the dried flowers can perform at their very best? Which presentation options would best fit your very own style? It ought also to remain natural, therefore wooden laths, bamboo or metal rings are optimally suitable.

>> Pages from 65 to 75

3

THE SPECIAL EYE-CATCHER

Setting highlights

The dried flower treasures have their own place. Now you can emphasise your own individuality to an even further extent. After all, it's all about creating the right highlights. And here, too, naturalness is the main focus: jute cords are a must to underline the naturalness and the messages engraved by means of the woodburning pen add an exceptional personal touch.

>> Pages from 76 to 85

Dried floral treasures

Baby's breath flower, velvet grass, sea lavender and many more **dried flower beauties** are the basis of the **trendy topic related to dried flowers**. Graceful, elegant, timeless – and can be easily further processed in a few quick steps.

- 1 synthetic paintbrush (flat) in sizes 6, 8 and 12 each

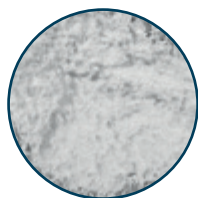

33 487 000 (12)
Glue Fix Pen
bottle 30g

Acid free

- Water-based quick adhesive with a fine tip for easy application with pinpoint accuracy
- Pollutant-free (free of thinners, fillers, solvents, formaldehyde additives)
- Made of a high-quality synthetic resin glue
- Dries transparent out

- Ideal for wood, papier-mâché, paper, etc.
- Particularly suitable for gluing cork, cardboard, textiles, leather, mirror on wood
- Open time (at approx. 20°C): approx. 6 minutes

Must Have

34 405 102 (6)
Casting powder Raysin 200
Bucket 400g
white

34 464 558 (3)
Creative-cement 5in1
bag 3kg
rock-grey

- **Raysin** is a **pure white casting compound** providing an **ultra-matt surface** with a **smooth visual effect**
- Air-hardening, odourless and food-safe
- Suitable for casting moulds made of plastic (PET, LDPE etc.) latex, silicone and rubber
- The cast item can be **demoulded after about 30 minutes**, completely dry after a few days (depending on the size of the casting)
- **Raysin 100**: good tensile strength (120 N/mm²), suitable for **smaller items** such as decorative pendants or figurines
- **Raysin 200**: high tensile strength (200 N/mm²), perfect for **larger castings** such as embossed items, figurines, decorative tiles, tesserae and ornaments

One for all: The all-rounder among the concretes!

- **Ideal for casting** thanks to its high fluidity
- **Perfect for moulding**, even of extremely thin-walled objects (e.g. balloon-lamps)
- **Easy to knead** and shape
- Due to its fine granulation also suitable for **fine small moulds**
- **Hardens extremely fast**, demouldable within approx. 1 hour

36 129 000 (4)
PET casting mould Houses, pitched roof
3 houses, depth of 3cm

Exclusive
by Rayher

- **Versatile casting mould** made of PET
- Clear, dimensionally stable material
- **Reusable**
- Heat-resistant (up to about 60°C)
- Ideal for casting with **creative-cement** & **creative-cement 5-in-1**, decorative concrete, Raysin, sidewalk chalk and soap

Application tips:

- Depending on the casting material, grease the moulds with a household edible oil before casting - for **easy demoulding** and **maintenance of the mould**
- The moulds can be poured at **different heights**: low for filigree pendants and high for decorative stand-up displays
- **Labels of Rayher** are perfectly matched to the size of the moulds

36 058 000 (4)
casting mould: houses
4 houses 5,5-10,5cm, depth 3cm

36 059 000 (4)
Casting mould: Houses
2 houses 13,5-16,5cm, depth 3cm

36 061 000 (3)
Casting mould: House
16x23,5cm, depth 4cm

- **Versatile casting mould** made of PET
- Clear, dimensionally stable material
- **Reusable**
- Heat-resistant (up to about 60°C)
- Ideal for casting with **creative-cement** & **creative-cement 5-in-1**, **decorative concrete**, **Raysin**, **sidewalk chalk** and **soap**

Application tips:

- Depending on the casting material, grease the moulds with a household edible oil before casting – for **easy demoulding** and **maintenance of the mould**
- The moulds can be poured at **different heights**: low for filigree pendants and high for decorative stand-up displays
- **Labels of Rayher** are perfectly matched to the size of the moulds

Silicone casting mould Alphabet letters
2-part mould with 26 letters, box

- **Casting mould** made of high-quality **silicone**
- Particularly elastic and stable material
- **Reusable**
- Frost- and heat-resistant (from -40°C up to 240°C)
- Very easy to demould and dimensionally stable
- Perfectly suitable for casting with **creative-cement**, **Raysin** and **casting resin**
- The casting mould is designed in a way that the **cast letters can stand upright freely**
- Letter dimensions: height 5cm, depth 2.5cm

34 450 000 (8)
Epoxy resin art
2 x 118ml / 4oz, tab-blister 2 bottles

- **High-gloss, brilliant two-component casting resin with a great depth effect**
- Whether by classical application, as a covering or as a varnish
- Also **applicable in thick layers**: after curing, the casting resin becomes firm and dense

- **Food-safe**
- **Absolutely transparent and crystal clear** (does not yellow)
- Easy mixing ratio (1:1)
- **Suitable for indoors & outdoors**
- Perfect for wood, glass, plastics, metal, concrete
