EC-Norm for the safeguarding of toys

Dear customers,

The legislator stipulates that toys must comply with an EC standard and be marked with the "CE" symbol.

Our items are mainly handicraft materials, i.e. starting materials. Thus, they are not subject to labelling and therefore do not have to comply with the strict regulations that apply to toys (e.g. danger from swallowing small parts such as wooden beads etc.). Please make parents and teachers aware of this issue.

Products that have not been tested and labelled, or products made from them, should generally be kept out of the hands of toddlers under 36 months. Children under age 14 should do handicrafts under adult supervision, by taking the general safety precautions (when it comes to knife, fork, scissors, light ...).

We wish all users many enjoyable hours of crafting and a lot of joy with the things they have made.

All items with a yellow mark are **novelties**.

Bunny & egg -

The Easter dream team: an indivisible whole

There is not much time left until Easter when the dream team, bunny & egg, resumes its rightful place in our world of decoration. These two symbols are best positioned to herald spring and to reflect a new beginning - what better way to put an end to the winter blues. The bunny and the egg - you cannot have one without the other – announce that life is coming into its own again.

The rabbit, one of the first animals to have young after winter, epitomises the return of life. Its main role of hiding Easter eggs brings not only joy, but also lots of gifts and treats, which makes it particularly popular. The eggs, however, embody the new beginning we celebrate at Easter. This strongly embedded symbolism makes the rabbit and the egg indispensable at the Easter celebrations.

Just as the rabbit and the egg form a symbiotic relationship, so do materials like wood and Raysin. It has become evident that the combination of wood and Raysin is a true representative of well-being. And now, with the Easter dream team, the concept exhibits its full potential. The creative possibilities are endless: special placeholders, called 'nupsis', leave the necessary space in the casting mould to be filled with exquisite wooden motifs after demoulding. The "nupsis" placeholders actually join the wood and the Raysin in order to draw them closer together. In this way, the integration of wood into Raysin is easily established, while opening up new creative possibilities - contemporary yet traditional.

THE RAYHER FORMULA

Raysin + wood + Easter = infinite decoration possibilities

Raysin and wood, the ideal combination for well-being! The simplicity of Raysin and the natural character of wood blend

in perfectly to create an exceptional atmosphere of wellbeing - the optimal design to herald the arrival of spring.

BUNNY & EGG

The dream team draws ever closer

The bunny and the egg are an essential part of Easter - they form a dream team. Thanks to the innovation called "nupsis" (placeholder), the two are getting even closer. Wooden motifs of different thicknesses can be perfectly inserted

into the space reached by the placeholder. Eggs in bunnies? Bunnies in eggs? Eggs in eggs? Bunny in the bunnies? The possibilities are virtually endless. Paper flowers and colourful ribbons bring an additional splash of colour.

Easter & spring -

Soft birds-chirping sound:
The outside world becomes colourful

We're all noticing that with the first bright twitter of birds outside, our mood is starting to pick up. We are ready to welcome the spring. The birds cheerfully herald the arrival of the colourful season. Easter is much more than just a celebration of traditional customs - it's also the celebration of the enchanting spring season. When the sun beams down its warm rays to earth and the first flowers emerge from soil in vivid colours, the nature awakens slowly from its winter slumber. The birds' songs fill the air with joy, reminding us that life is back to normal.

In this colourful time of year, children as well as adults are returning to the joys of crafting. With laughing eyes and creative ideas, they welcome the arrival of spring with original DIY projects. They let their imagination run riot by making colourful decorative items using wooden shapes to scatter, chenille wire, colourful pompoms and wobbly eyes. This results in brightly coloured Easter eggs and individual spring pendants.

Easter gives the go-ahead to spring. The gifts from mother nature in the form of blooming flowers, the enchanting bird chirps and the hours dedicated to children's creative handicrafts generate a unique synergy for celebrating a feast day full of bright colours and joyfulness. Spring is just around the corner, offering new adventures and unforgettable experiences.

MATERIALS

Raysin, concrete and wood as the basis for unlimited creativity

With a good base provided from the outset, the natural flow of creativity expresses itself freely. Whether it's about casting with Raysin or concrete, the numerous new casting moulds, such as those for casting vases, figurines and coasters, make it possible to achieve a variety of spring decorations. Or, perhaps, simple wooden pendants are just enough to inspire creativity in your customers?

HIGHLIGHTS

Subtle pastel shades meet bright colours

The first soft birds-chirping sound and colourful flowers make this time of year a magical one. This magic is also reflected in the DIY world: bright colours take the upper hand over the dreariness of winter; light, subtle pastel shades

blend in bright colours. Colourful transfer foils with Easter motifs, quickly applied to candles, for example, pave the way for spring creativity.

- Allround casting mould made of PET
 Clear, dimensionally stable material
 Reusable
 Heat-resistant (up to about 60°C)
 Perfect for Raysin, creative-cement and creative-cement 5in1

- Tips for use:
 The moulds can be filled at different height levels
 Rayher-Nupsis are perfectly suited to this casting mould

Exclusive by Rayher

- Frost- and heat-resistant (from -40°C up to 240°C)

Fish, lighthouse & Co. –

Event-related decoration or love of the sea: a combination of the two is permitted

We all love summer, that long-awaited time of year when the warm sun caresses our skin and our world is wearing the combination of marine colours: blue, yellow and pastel shades. We look forward to feeling the fine sand on the beach and listening to the soothing sound of waves, which stimulates us to let our thoughts drift away and to enjoy small pleasures that give life meaning. The love of the sea is so much more than a simple nostalgic memory – it is also an attitude towards life that can be felt. Symbols of the sea form an integral part of the warm season: fish, seashells, lighthouses and origami boats are keepsakes that bring back memories of adventure, a sense of freedom and a deep connection with nature.

Fish, in particular, fulfills a dual role during this season: it's not just the big star of our summer maritime decorative arrangements, but also a key element in the decoration of celebrations and special events. As a decorative element at communions, baptisms and confirmations, it becomes an ancestral symbol closely linked to the Creed and the Christian faith.

Maritime decoration? Religious event? No need to choose! In combination with seashells, sand and boats, we create an atmosphere that soothes your customers' longing for the sea. And why only use fish as decorative elements on special events? They don't just look great as a decoration for a baptism, communion or confirmation, but also as a summery maritime decoration. Your customers will certainly be seduced by the diversity of these symbols inspiring creativity and will certainly want to create this very same sunny maritime atmosphere in their homes.

BASE

More than just the sea

Whether using Raysin or concrete, the casting with our new casting moulds is done in the blink of an eye and they form the base for any summer decoration. However, many

of these cast shapes derived from these casting moulds can also be used to decorate festive tables for communion, baptism or confirmation.

DECORATION

Summery maritime look

The base has been set up – the desired shapes are reached. Now the best is yet to come – the decoration, by sticking something on, stamping... With transfer foils, stamps, wooden maritime shapes to scatter or real seashells, the love of the sea becomes palpable while awakening the desire to go on holiday.

- Casting mould made of high-quality siliconeParticularly elastic material
- Reusable

- Frost- and heat-resistant (from -40°C up to 240°C)
 Very easy to demould and dimensionally stable
 Ideal for casting with creative-concrete, decorative concrete, Raysin, cast resin and wax

Application tip:
• The moulds can be filled in at different height levels: at low level for filigree pendants/figurines and high level for decorative display

- Casting mould made of high-quality silicone

Dimensions: 23.5×11×4.5cm, 27.5×13.5×5.5cm, 32×16×6.5cm

Must Have -

Small accessories: indispensable

Casting, fabrics, jewellery & tools

Casting remains in vogue and the new casting moulds bring even more pleasure. In this season of the year, the must-haves are expanded by new textile items, such as macramé yarns in trendy colour combinations and a set of cotton fabrics. Trendy Heishi bead sets and wood braiding/knotting discs are enhancing the jewellery-making sector. We cannot obviate either novelties in the field of tools, because small, useful accessories and basic craft products are essential for all kinds of creative projects.

Glittering and glimmering - in an eco-friendly way

Glitter and microplastics are currently a matter of concern. But lots of craft enthusiasts who like it shiny do not want to hear anything. In order to fulfill this need, we offer you and your customers a range of glitter and glitter dusts that are completely harmless, as they contain no microplastics, i.e. they are made from natural raw materials and are therefore biodegradable. So the glittering remains present without having an adverse impact on the environment.

ECO W **FRIENDLY** 34 482 606 (12) Glimmer spray plastic-free, water-based, spray can 150ml

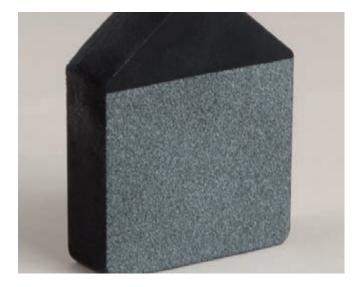

ECO W FRIENDLY 34 482 616 (12) Glimmer spray plastic-free, water-based, spray can 150ml gold

ECO W FRIENDLY **34 482 701** (12) Glimmer spray plastic-free, water-based, spray can 150ml

- Permanent, non-covering glimmer spray
- Water-based
- Suitable for various absorbent substrates such as wood, Raysin, paper, papier-mâché, natural materials and styrofoam
- For an elegant, subtle pearly lustre
 The uniform, fine spray mist serves also as a protective coating
 Quick-drying and non-yellowing

Tips for use:

- Shake the spray can vigorously before use and ensure a spraying distance of about 20-30 cm
 After use, turn the spray can upside down and spray the spray nozzle empty

Be nature – be creative –

The nature: individual & unique

In today's fast-paced world, there's a growing need to step back and reconnect with nature. The strong desire to live in an environmentally friendly manner opens up paths to creation. Special focus is placed here upon the beauty of nature - its diversity of materials, colours and textures inevitably leads to creative projects that stand not only as an acme of aesthetic accomplishment, but also, and particularly, as a useful means of getting back in touch with nature.

When it comes to grasses such as reed or indian corn grass, or other natural materials, we are not used to linking them to traditional craft, weaving or knotting techniques. That's where the magic of nature comes in: it offers unlimited possibilities for creating beautiful and one-of-a-kind things. By incorporating these same materials into our creative projects, we can undoubtedly create outstanding home decorations that reflect our individuality and creative spirit. Your customers will be able to discover the different textures and shapes by touch. It's a process of perception and a sensory experience that go far beyond simple creation. Here, the activity itself becomes an experience, a journey into the world of natural materials that connects us to the earth. By sewing, winding, braiding and gluing, amazing objects emerge bringing the beauty of nature into the home. Whether combined with glass, natural sand or pebbles, the scope is huge. Each piece of nature has its own identity, its own story, and when combined with other materials, it gets a distinctive appearance and induces a sense of self-satisfaction.

It's high time to take advantage of nature's treasures to carry out creative projects emphasised with a touch of our individuality.

FEELING NATURE

Natural ropes

A decoration as individual as nature itself. Water hyacinth straw rope, seaweed twine, corn rope or straw rope: each of these natural ropes is different in appearance and to the touch, and when working with them, the nature becomes tangible. Weaving, braiding, knotting, winding - the possibilities are quite endless.

WELL BRAIDED

Viennese + rattan braids

When it comes to making furniture, Viennese and rattan braids are traditional materials. But these very same traditional materials are also perfect as a basis for giving effect to various DIY ideas. Whether it's about glass candle holders, a pretty jewellery box with a natural look or storage boxes: wicker is an incredibly versatile weaving technique.

DECORATION

Boundless creativity

With glass jars, wooden coasters and a host of natural-looking decorative materials, the topic of nature is at its peak. Winding, knotting, gluing and decorating - the

wide range of methods makes creative projects very easy to complete, while ensuring oustanding outcomes.

41 006 000 (6) Reed grass rope, twisted, 8mm ø 10m, natural, bunch 1pc

- Reed grass rope twisted from dried reed grass
 Natural product: quickly renewable and extremely sustainable material
