Your life – your lifestyle – your favourite cup

You like to have always your favourite drink “to go” with you? At the same time, the sustainability and the environment are an important issue for you?

The first coffee chains are setting an example by filling now your cup too with their black gold. From now on, fill up and savour your coffee, café latte or frappuccino in a reusable environmentally friendly cup, and make thereby a statement that is trendy and absolutely vital.

At the same time, you do not have to give up your style, because we have now the perfect solution for you: our bamboo range!

With bamboo, “reusable” becomes just as unmistakable and highly fashionable as you are. Create your cup on a whim – for you & your friends.

All you need to do is...

Choose your favourite item out of bamboo (1) and your favourite colour (2), and the creative adventure can start! Durable markers are also handy (3); stencils (4) may be helpful for the paint application or just choose your favourites out of ready decorative peel-off motives (5).

Bamboo – one resource, many advantages:

Bamboo is a fast-growing renewable raw material that requires little energy during processing and thus saves resources. Our bamboo products contain besides bamboo also cornstarch and a bit of melamine - they are absolutely practical and stable, dishwasher & food-safe.

Besides the classic „to-go cups“ in two sizes (1), you will also find a practical cereal bowl (2) and a highly versatile drinking cup (3) in our product range.

Bring some colour into play

You want your bamboo highlight to underline your very personal look? Choose your favourite colour, and there you go!

For a good ink adhesion, we recommend you our Chalky Finish and Extreme Sheen paints. These paints enable you to conjure up unique, extremely matt or shiny effects in no time.

Painting, stamping or stencilling – the sky's the limit.

Please take note:

For the best possible outcome, you need to be aware of certain points when working with our bamboo products:

- the substrate must be free of dust & grease.
- the paint cannot be baked, because the material out of bamboo is not suitable for the oven.
- therefore, allow the paint to dry thoroughly out (at least for 24 hours).
- subsequently, wash by hand or gentle wash cycle in the dishwasher (at about 65° C).
- the paint is wipe-resistant, but not permanently scratch-resistant.
- do not paint the areas that come into contact with foodstuffs or lips.

Nice, nicer, the nicest!

Whether discreet and classy, or cheerfully colourful, whether in a trendy tropical look or furnished with oriental motifs...

Your bamboo, your style!
And your cereals taste now even better, brushing teeth becomes finally more fun and your better half is going to appreciate even more your coffee.

Dot, dot, comma, dash...

Our markers allow you an individual design that is not only absolutely unique, but also really easy-peasy. Thanks to their fine, firm tip, you can write, draw and create great patterns on our bamboo material.

**We recommend you
following markers
from our range:**

- Porcelain & glass marker
- All-purpose marker

Small effort, big impact

Are you already aware of our new decorative peel-off motives? Simply peel them off, then stick them on - and enjoy your drink in a stylish cup.

These creations can also be washed by hand or in the dishwasher at 65° C.

Suitable application instructions can be found on the page 4.

You like it even more customized? No problem!

With our transfer medium, you can print your current favourite picture or your "Quote of the day" on a laser printer and transfer it in a flash onto your bamboo product.

With a matching marker you can now add names, dates and/or other decorations. It cannot be more personal!

Suitable application instructions can be found on the page 4.
