

Discover cement

You like it timeless, simple and modern? Then cement works of art are just the right thing for you. Cement decoration has been an integral part of the creative scene for many years. Embrace the trend: with cement, you remain versatile and creative. Weather-resistant, frost-resistant, solid, robust – these are just a few of its properties. Step into the cement world and turn your ideas out of cement into reality.

Your project – your concrete

Different requirements need different cement: we have the right one for all your ideas. With our creative-cement and a casting mould, you can easily cast great artworks. For small, filigree projects, it is best to use our decorative cement. Kneading-cement stands for boundless creativity. You can model every imaginable shape. With our 5-in-1 cement, you remain flexible: casting, modelling and even moulding work wonderfully with our versatile cement.

More accessories for more creativity

Be well prepared for your next concrete project: with our little helpful accessories, your cement work will succeed easily and you will achieve unique workpieces.

Our various **casting moulds and full-moulds** out of PET, LDPE, latex, silicone or plastic determine the shape: Two-dimensional motifs or full moulds for the 3D look? You have the choice. Both variants are easy to handle. **Colour pigments** make your cement compound colourful.

Add special messages to your cement workpiece: express yourself through one of our numerous **labels** for casting.

Adorned with a gold leaf sheet, decorative metal, varying hues?

Give your cement artwork its distinctive look and style.

Cast your ideas into shape.
With the creative-cement of Rayher.

Creating trendy objects and decorative worlds by means of this unique creative-cement with specific character is easy-peasy and child’s play. Caution: danger of addiction! Once you have cast the first shapes, you cannot stop doing it any more.

The specialist in casting

- Ready-to-use & low-dust – coarse-grained
- Perfect for any type of casting mould: PET, LDPE, latex, silicone or plastic
- For great bowls, decorative figurines or objects and much more

Application:

- Mix with water
- Fill the casting mould with it
- Let it air-dry & demould
- Decorate it to your heart’s content with paint, decorative metal or by other creative techniques

Become a jewellery designer.
With the jewellery cement of Rayher.

By means of this interesting material cement, you can create extraordinary pieces of jewellery in the typical cement look: simple, sophisticated & as individual as you are! Decorative cement is particularly fine, so little workpieces are shown to their best advantage.

The specialist for little castings

- Ready to use & low-dust – fine-grained
- Ultra fine & smooth surface: perfect for small casting moulds of all kinds
- For jewellery pieces and little, filigree castings

Application:

- Mix with water
- Fill the casting mould with it
- Let it air-dry & demould
- Decorate it to your heart’s content with paint or decorative metal and with jewellery accessories

Concrete in a new dimension.
With the kneading-cement of Rayher.

Are you endlessly creative? Kneading-cement opens up a whole new dimension in creativity for you. Even without a casting mould, you can shape it: by kneading, modelling, cutting, stamping, engraving, smoothing or by means of cookie cutters ... the possibilities are numerous and varied!

The specialist in kneading, shaping, cutting out & modelling

- Ready-to-use, fuss-free & adaptable
- Perfect for individually modelled decorative objects such as rose petals, figurines, shapes and much more

Application:

- Add water & knead out
- Bring into the desired shape
- Let it air-dry
- Decorate it to your heart’s content with paint, decorative metal or by other creative techniques

Cement casting with attitude.
With the creative-cement 5-in-1 of Rayher.

Remain an all-rounder! With this versatile cement, you do not have to choose: casting, kneading or moulding – everything is possible. It also hardens extremely quickly. Ideal for giving concrete a try – or when things have to be done quickly.

The jack-of-all-trades for all purposes

- Ready-to-use & versatile in use
- Perfect for your casting or kneading projects, for filigree castings and for moulding (e.g. balloon lamps)

Application:

- Stir in a small amount of cement
- Water quantity depending on the application
- Process immediately
- Let it air-dry
- Decorate as you like
