Used items for the 3D caravan:

62 858 505	Wood construction kit 3D caravan	1 piece
35 023 105	Glaze, alabaster white	1/5 bottle
35 023 212	Glaze, coral	1/8 bottle
35 023 558	Glaze, stone grey	1/10 bottle
38 000 576	All Purpose paint, black	1/15 bottle
59 499 000	Sticker The Secret Garden	1 sheet

Additionally you need:

37 075 000	Set of brushes
30 201 000	Wood/cork glue
	Aluminium foil
	Kitchen roll

Instructions for the 3D caravan:

You can paint the caravan before or after putting the pieces together. It is easier to paint the individual parts lying flat.

Hint:

Please note that you do not paint the butt joints with paint. Because paint on the joints can cause the wood to swell and then cause problems when put together.

- 1 Assemble the caravan according to the construction manual. Glue with wood/cork glue if necessary.
- 2 Paint with the coral glaze paint the lower third of the caravan side panels and the area of the base plate. For the remaining surfaces of the side panels, the rear end, the roof, the front parts, the awning triangles and the supply box - use the alabaster white glaze. Let them dry out.

- 3 In the meantime, paint with the stone grey glaze the window trims, the decorative borders, the trailer hitch and the lock rings for the wheels. Let them dry out as well.
- 4 For the tyres, use the black All Purpose paint.
- 5 Paint the striped awning alternately with the glaze paints stone grey and coral as well as with the black All Purpose paint.
- 6 Decorate the caravan according to your preferences with painted wooden flowers & stickers.
- 7 Finally, you can couple the 3D caravan with the 3D camper.

Used items for the 3D camper:

62 879 505	Wood construction kit 3D camper	1 piece
35 023 105	Glaze, alabaster white	1/8 bottle
35 023 212	Glaze, coral	1/5 bottle
35 023 558	Glaze, stone grey	1/10 bottle
38 000 576	All Purpose paint, black	1/15 bottle
59 499 000	Sticker The Secret Garden	2 sheets

Additionally you need:

37 075 000	Set of brushes
30 201 000	Wood/cork glue
	Aluminium foil
	Kitchen roll

Instructions for the 3D camper:

You can paint the camper before or after putting the pieces together. It is easier to paint the individual parts lying flat. Above all the interior furnishing.

Hint:

Please note that you do not paint the butt joints with paint. Because paint on the joints can cause the wood to swell and then cause problems when put together.

- 1 Assemble your camper according to the construction manual. Glue with wood/cork glue if necessary.
- 2 Paint with the coral glaze paint the lower two thirds of the side panels, the doors, the lower rear part and the two lower front parts. Use the alabaster white glaze for the upper third of the side panels, the side parts of the seats and the wide stripes of the seats, rear & front windows, the

large and medium roof plate, door handles, wheel rims and the lock rings for the wheels.

- 3 Take the stone grey glaze for the base plate, the centre lateral decorative strips, the narrow seat stripes, the boot lid, the centre rim rings, the bumpers, the trailer hitch, the small front panel, the wing mirrors, the cooler, the lights and the last small rooftop with roof racks.
- 4 Paint the tires, the steering wheel and half of the lower tail light with the black All Purpose paint. Let them dry well out.
- 5 Decorate the camper according to your preferences with painted & designed surfboards and stickers.
