Used items:

22 691 06	Decorative metallic element, round	1 piece
44 001 02	Yarn, 2 mm ø, white	40 cm
22 768 06	Set of flat rings, gold	1/2 pack
22 904 16	Metal bead, 6 mm ø, pinkish-gold	1 piece
22 382 06	Ring, round, 4.6 mm ø, gold	4 pieces
22 415 06	Connector for jewellery cords, gold	1/2 pack
22 240 06	Magnetic clasp, round, 7 mm ø, gold	1 piece

Additionally you need:

89 379 00	Pointed-tip paper scissors	1 piece
89 541 00	Flat round pliers	2 pieces
33 397 00	Glue for jewellery	

Ruler, tinfoil, large pin, wooden skewer

Instruction:

1 Cut 2 pieces of cotton yarn, each 20 cm long. Untwist one piece of yarn so that you obtain three crimped strands. Tie these strands separately by laying them right next to one another to the larger gold metal flat ring.

2 Untwist the other piece of yarn as well. This time, string the pinkish-gold metal bead onto the strand. To facilitate the stringing, coat the end of the fluffy strand with jewellery glue and shape it with your fingers to get a pointed tip. Once the glue has dried out, you can easily string the bead on. Tie the entire strand to the opposite side of the ring with the metal bead facing upwards. Attach the metal decorative element in the middle of the tied yarns at each side of the ring using the two flat round pliers.

3 Check the length of the bracelet by putting it around your wrist. Take the clasp into account and cut off the yarn evenly. Put some glue for jewellery onto the ends of the strands and join them together between two fingers so that each end-point fits into the jewellery connector. For a better grip, apply some more glue for jewellery.

4 Insert it so that the closed side is on the back of the bracelet. Now close the jewellery connector by means of the flat round pliers. Use the small rings to attach the magnetic clasp to the ends.
