Additionally you need:

89 342 00	Side cutters for jewellery	
33 363 00	Mini hot-melt glue gun	
89 377 00	Craft scissors, 20.5 cm	
	Button cells	2 pieces
	Felt-tip pen	
	Cardboard as spray base	

Instructions for the hanging ball:

- 1 Clean the plastic balls from the outside with a damp cloth and some detergent, so that the surface to be sprayed is clean and free of grease. Shake the spray for a sufficiently long time, according to the instructions on the spray can.
- 2 Place the two halves of the plastic ball on a cardboard and spray their outer surface with the golden High gloss metallic spray. Let them dry well out (at least one hour).
- 3 Fasten the glitter ribbon as a hanger at the upper crosspiece.

Instructions for the illuminated ball:

- 1 Place one half of the plastic ball on a cardboard and spray its outer surface with the golden High gloss metallic spray. Let it dry well out (at least one hour).
- 2 Thread alternately star-shaped sequins and pearl beads onto the silver wire, and fix them once again by threading the wire through the respective hole. Always leave a gap of approx. 5 cm between the pearl bead and the star-shaped sequin.
- 3 Now wrap the silver wire around the felt-tip pen (a diameter of about 8 mm), remove it again, then pull it apart a little bit.
- 4 Fill now the silver ball half with decorative feathers, the Micro LED fairy lights, and finally with the threaded wire piece. Wrap the fairy lights around the upper crosspiece and close it.
- 5 At the end, affix the decorative feather, a star-shaped sequin and a pearl bead at the crosspiece of the faceted ball by means of the hot-melt glue gun.
