22 333 21	Key ring, 30 mm ø	1 piece

Additionally you need:

38 329 00	Ironing paper
30 218 000	Textile adhesive
37 074 000	Set of brushes "Art", synthetic
89 208 00	Rotary cutter
89 544 00	Split ring pliers for jewellery, 13.5 cm

Iron, some sellotape to mask

Instruction:

1 Decorate the bag with the iron-on transfer foil Honeycomb according to the instructions of the article

Create the tassel as follows:

2 Prepare the cuttings:

- 1 cutting 15 × 1 cm silver
- 1 cutting 12 × 8 cm silver
- 1 cutting 12 × 8 cm silver shadow
- 1 cutting 8 × 1.5 cm silver

3 Apply the textile adhesive flat with the brush on a fabric cutting of 12 × 8 cm and stick the 2 cuttings together. For the loop, spread the adhesive on the 15 cm long cutting and stick together to a width of 0.5 cm.

4 Cut into 3 mm wide and 6.5 cm long strips on the 12 cm long side with the rotary cutter.

5 Form the 15 cm long, stuck together piece into a loop, put some glue on both ends and roll it up with the tassel-cutting (at the not cut area).

6 Wrap up the tassel with the cutting 8 × 1.5 cm large and affix it by means of the textile adhesive.

7 Cover the large wooden bead Diamond with some sellotape in the middle, paint the free half with Extreme Sheen gold and let it dry out.

8 Grab the cotton cord of 2 × 20 cm flush and make a thick knot. Thread on the large wooden bead Diamond, a medium and a small black wooden bead Diamond, and knot it at the loop of the tassel. Open the key ring with the split ring pliers and hook in the tassel and the bag handles.
