Easter feast in black & white.
Granite effect spray provides
that special look.

WWW.RAYHER.COM

Used items:

39 055 00	Plastic eggs, ø 6 cm	1 packet
34 434 558	Granite effect spray, stone-grey	1/10 can
42 000 504	Jute cord on a wooden card, ø 1.5 mm, sand	1,2 m
89 012 00	Hook for plastic and styrofoam eggs	10 pieces
85 155 00	Feather mix	approx. 10-15 pieces

Additionally you need:

33 363 00	Mini hot melt glue gun
89 377 00	Craft scissors
30 166 000	Hot melt glue sticks

Wooden skewers

Instructions:

1 Poke the plastic eggs with the wooden skewers. Shake well the granite-effect spray before use. Spray the granite-effect spray onto the egg at a minimum distance of 20-25 cm and at regular intervals. Spray more or less depending on the desired colour intensity. Leave the eggs on the wooden skewer (e.g. standing upright in an empty container) to dry well out (approx. 2 hours).

2 Split the jute cord strands in order to get a filigree hanging thread. Insert the suspension hook into the plastic egg, string the split jute cord, define the desired length and tie a knot.

3 Insert matching feathers (selected from the feather mix) into the eyelet of the suspension hook and affix them onto the egg with a drop of glue using the mini hot melt glue gun.

*Without drying time
