Wire star

Used items:

24 091 000	Wire star	1 piece
34 504 000	Textile strengthener	1/50 bottle
42 009 102	Braided Recycling yarn, braided, 2 mm	4.60 m
38 250 00	Phantom Sketch stylus (for light-coloured textiles)	1 piece

Additionally you need:

89 537 000	Fabric shears, 21 cm
37 047 000	Brush set Kindergarten+school, FSC 100%
Aluminium foil	
Cardboard	

Instructions:

- 1 Cut a total of 44 strands (about 10 cm each) from the Braided Recycling yarn. You will need 20 cm later for the hanger.
- 2 Lay the piece of yarn twofold and thread the ends of the yarn through the resulting loop. Tighten well the resulting knot on the wire star.
- 3 Attach all 44 strands in this way.
- 4 Put the wire star on the cardboard with aluminium foil. Make sure that the strands are lying next to each other.
- 5 Then coat the yarns on one side with the textile strengthener. Allow to dry thoroughly out.
- 6 When the wire star is dry and has solidified, take a round object with a diameter of about 9 cm, e.g. a glass, and place it in the middle of the wire star. Then, trace the contour of the glass by means of the Phantom Sketch stylus and cut out with the fabric shears.
- 7 To hang it up, thread approx. 20 cm of Braided Recycling yarn through the suspension eyelet.
