GB

Bunny trio. Wooden egg meets Raysin bunny.

## Used items:

<b>36 178 000</b>	PET Casting mould Bunny, big	1 piece
<b>36 142 000</b>	PET casting mould Bunny	1 piece
<b>36 990 00</b>	Casting powder "Raysin" 200	1 bag
<b>30 241 000</b>	Nupsi placeholder Easter egg	1 piece
<b>46 784 505</b>	Veneer wood Easter eggs, natural	2 pieces
<b>46 691 505</b>	Wood shape Easter egg, natural	2 pieces
<b>42 000 504</b>	Jute cord on wood card,ø 1.5 mm, sand	60 cm
<b>85 108 02</b>	Decorative feather, black/white	2 pieces

## Additionally you need:

**33 487 000** Glue Fix pen  
Scissors, double-sided adhesive tape, sandpaper, needle or tweezers

## Instructions:

- 1 Insert the Nupsi placeholder into the small casting mould using the tweezers and fix it in place by means of the adhesive tape.
- 2 Mix the Raysin powder with the exact amount of water given in the instructions and fill the two casting moulds with the mixture obtained. After a drying time of 240 minutes (for the large bunny) and 180 minutes (for the small bunny), you can demould the bunnies and remove the Nupsi placeholder.
- 3 Insert the wooden egg in the oval hole of the small bunny and fix it in place using the Glue Fix pen, then glue the veneer wood egg on top.
- 4 Cut a bit of string 60 cm long from the jute cord and wind it twice around the large bunny. Then glue on the wooden egg, the veneer wood egg and the decorative feathers.
- 5 The third bunny does not need to be cast with the Nupsi placeholder and decorated.

\*Without drying time
