<b>38 867 807</b>	Chalky Finish, light topaz	1/60 can
<b>38 867 432</b>	Chalky Finish, jade	1/100 can
<b>38 867 390</b>	Chalky Finish, lagoon	1/100 can
<b>38 000 160</b>	All Purpose paint, lemon	1/100 bottle
<b>55 517 258</b>	Yarn, pinkish	2 m
<b>33 487 000</b>	Klebefix glue	1 g

## Additionally you need:

<b>37 052 000</b>	Paintbrush set Hobby Kreativ	1 set
<b>89 378 00</b>	Craft scissors	1 piece

## Instructions:

- 1 The individual punched components shall be painted lying flat (on both sides) on the wooden board and not yet taken out of the board. Thus the edges of the motifs remain unpainted when they are later plugged together.
- 2 Mix the avocado-coloured Chalky Finish paint and the white Chalky Finish paint in a mixing ratio of 1:1, add some water and mix it all together.
- 3 Paint the outer contours of the eggs, the grasses and all bottom and plug-in parts with this Chalky Finish paint mixture on both sides.
- 4 Paint the flowers, butterflies, hearts, rabbits, eggs,... according to your own wishes with the Chalky Finish colour shades on both sides. Let the entire board to dry well out.
- 5 With the Quickie-Glue adhesive stick and the effect-glitter dust, you can add a personal touch to the motifs. For this purpose, refine the hearts, grasses, flowers, etc. with the Quickie-Glue adhesive stick and immediately sprinkle the effect-glitter dust or glitter onto the still wet glue. Let them dry out.
- 6 Then carefully take out all punched components, put them together according to the instructions on the packaging and affix them with some Klebefix glue. Carefully insert the finished wooden plugs into the plastic eggs and close them.
- 7 Finally, attach the yarn to the top of each plastic egg as a suspension loop.
