Additionally you need:

| | |
|------------------|----------------|
| 61 098 00 | Wooden skewers |
| 37 127 00 | Fan brush |

Hot glue, tweezers, cosmetic tissue, vessel filled with water, scissors

Instructions:

Egg no. 1 & 9 / Unicoloured egg with organza ribbon

Egg no. 1 / Put the egg onto the wooden skewer and paint it completely out with the paint Extreme Sheen gold by means of the fan brush.

Egg no. 9 / Mix the metallic paint Extreme Sheen aquamarine with the Extreme Sheen silver (2: 1). Put the egg onto the wooden skewer and turn the skewer with egg while painting it and hold the brush flat to the egg's upper surface. Let the paint dry out. Affix the organza ribbon at the middle of the egg by means of the double-sided adhesive tape. Glue firmly the end-point with a hot glue.

Egg no. 3 & 8 / Egg with a decorative peel-off motif bunny

Put the egg onto the wooden skewer and paint one third of the egg with the paint Extreme Sheen gold by means of the fan brush (egg no. 3).

For the egg no. 8, mix the metallic paint Extreme Sheen-aquamarine with the Extreme Sheen-silver (2: 1) and paint also one third with these blue paint mixture. While doing this, turn the skewer with egg and hold the brush flat to the egg's upper surface. Let the paint dry out. Cut out coarsely the front & rear side of the decorative peel-off motif bunny and soak it in a vessel filled with water for about 2 – 3 minutes. Remove the carrier foil from the motif. We recommend you to use tweezers while working with small motifs. Place the motif on the sidelines of the colour application of the egg and align it. Thereafter, dab it dry carefully by means of a cosmetic tissue. Let it dry out for a while and at the end, stick the golden lurex tape at the colour transition of the motif by means of the special double-sided adhesive tape. Glue firmly the end-point with a hot glue.

Egg no. 2

Egg with a third in pinkish colour. Put the egg onto the wooden skewer and paint one third with the paint mixture Extreme Sheen pink and silver (2:1). Let the paint dry thoroughly out and stick the golden lurex tape at the colour transition of the egg by means of the special double-sided adhesive tape.

Egg no. 4 & 5 & 6

Cut a heart (approx. 2.5 cm) and a strip (16 × 1 cm) out of the modelling fabric with scissors. Paint the egg in the desired colour. For the blue egg, mix the Extreme Sheen aquamarine with the Extreme Sheen silver (2:1). For the pinkish egg, mix the Extreme Sheen pink with the Extreme Sheen silver (2:1). Put the egg onto the wooden skewer and paint it completely out with the fan brush. Dip the cut-out motif out of a plaster bandage in the wet paint and press it carefully down. That way, the plaster bandage binds well with the paint.

Egg no. 7

Before you start, shake the All Purpose marker vigorously. Put the plastic egg onto the wooden skewer and while turning the skewer, draw lines by means of the marker.
