28 395 576	Stamp pad "Versacolor", black	1 piece

Additionally you need:

Tinfoil, kitchen roll, towel

Instruction:

Explosion box is more than just a package - its content reveals a colourful surprise full of beautiful memories and takes on even greater significance with personal photos. Every explosion box is very personal and individual, because you can design it according to your wishes or occasion and let your imagination run wild.

- 1 For the creation of the latter, it is best to choose 2 to 3 matching papers with which you would like to design the leporellos, envelopes and load pockets that are supplied in the box.
- 2 You can decorate and customise the lateral panels of the box with photos, stamps, Washi tapes, stickers and a personal note. You can add decorative elements, punched and stamped with motif punchers, that will spice up the design of your box.
- 3 Stick the decorated elements to the lateral panels and at the bottom of the box that can be seen once the box opens.

- 4 Finally, if desired, scatter some confetti in the box or onto the decorative element on the lid.

As soon as the lid of the box springs open, the lateral panels fall down and the surprise is complete!

TIP: With a hidden voucher in one of the envelopes, the recipient will be pleasantly surprised.
