

CRAFTING IDEA

GB

Faceted glass vase with stripes

WWW.RAYHER.COM

TIME REQUIRED

45 MINUTES

(WITHOUT DRYING TIME)

LEVEL OF DIFFICULTY

Used items:

| | | |
|-------------------|--------------------------------------|-------------|
| 56 929 000 | Glass vase faceted, 10 × 18 cm | 1 piece |
| 38 866 264 | Chalky Finish for glass, pink | 1/15 bottle |
| 38 866 266 | Chalky Finish for glass, salmon pink | 1/10 bottle |
| 38 866 102 | Chalky Finish for glass, white | 1/25 bottle |
| 38 434 00 | Sponge stamp | 1 piece |
| 33 393 00 | Double-sided adhesive tape | 0.9 m |

Additionally you need:

Masking tape

Instructions:

- 1 Before the creative designing, clean the glass vase grease and dust-free with water and detergent.
- 2 Stick on the double-sided adhesive tape at the upper half of the vase, back and forth irregularly.
- 3 Start with the pink paint Chalky Finish which has to be applied well covering the lower part of the glass vase by using the sponge stamp. Afterwards, dab off the salmon pink Chalky Finish at the lower part and the white Chalky Finish at the upper third of the vase. The colour transitions should be nicely uniform and not too sharp. For a harmonious colour gradient, at best pass each colour evenly into the other one.
- 4 After a short drying of the colour, you can take off the masking tape from the glass vase.
- 5 After four days drying time, the paint on the glass vase is so hardened that you can fix it in the oven according to the instructions of the label and that way, you can wash it in a dishwasher.
