## Instruction:

### Glass bottle „Glitter“

- 1 Clean the glass bottle with water and detergent.
- 2 Fill the vessel with cold water and apply the motif according to the instructions.
- 3 Remove the transparent transfer foil in approx. 4 hours.
- 4 Sprinkle about 10 g of golden foil confetti into the bottle.
- 5 Wind the golden glittered tape 5 times around the neck of the bottle and affix it on the rear side with the hot-melt glue.
- 6 Distribute the LED mini light chain on cork stopper decoratively in the bottle, add the black feather with silver & gold colour gradient and then close the bottle with the cork stopper.

### Illuminated glass bottle "Saying & stars"

- 1 Clean the glass bottle with water and detergent.
- 2 Fill the vessel with cold water. Cut the writing and the stars to shape and apply them according to the instructions.
- 3 Remove the transparent transfer foil in approx. 4 hours.
- 4 From the sequin mix "Glam", take the sachet with the silver hologram sequins and the matt gold sequins. For the winding at the bottle neck, you need about 5 sequins per each.
- 5 String these sequins alternately onto a piece of silver wire of approx. 70 cm.
- 6 Wind the golden glittered tape 4 times around the neck of the bottle and affix it on the rear side with the hot-melt glue.
- 7 Now wind the silver wire with the threaded sequins around the tape and distribute the sequins at any distance apart from one another. Connect the wire ends together on the rear side.
- 8 Sprinkle the remaining sequins alternately with the white decorative feather into the bottle. Stick the battery compartment to the bottom of the cork lid with the hot-melt glue and wind the coated wire around the compartment and fix it in place.
- 9 Insert the light chain into the bottle in a decorative way.
- 10 Stick the two decorative feathers together fan-like at the bottom of the bottle and decorate them in the middle of the bottle.
