# Glass jar with colour gradient

[WWW.RAYHER.COM](http://WWW.RAYHER.COM)

## Used items:

- 56 927 000** Glass jar, faceted, 9 × 9 × 9 cm
- 38 866 408** Chalky Finish for glass, mint green
- 38 866 102** Chalky Finish for glass, white
- 38 866 270** Chalky Finish for glass, powder pink
- 33 395 000** Double-sided adhesive tape, 3 mm
- 38 434 000** Sponge stamp

## Instructions:

- 1** Before dabbing, clean the jar with detergent. Glue irregularly the double-sided adhesive tape 3 mm on the central part of the jar.
- 2** For the paint coating use the sponge stamp. Firstly, cover by dabbing evenly the powder pink Chalky Paint for glass onto the lower third of the vase.
- 3** The second paint coating should be dabbed with the sponge stamp soaked with the mint green paint onto the middle part of the jar and the white colour onto the upper third. Always use a clean sponge stamp for each new colour.
- 4** After a short drying period pull the adhesive tape off. Finally, the designer object is finished.
- 5** After 4 days of drying time, the color is so hardened that you can fix it in the oven according to the instructions on the label. Thereafter, the jar is dishwasher safe.
