<b>21 548 00</b>	Special needle to thread beads

## Instructions:

- 1 Thread the both ends of the Magic-Stretch, one by one, in a needle for beads, then thread 3 glass faceted beads and 1 Renaissance bead up, and cross through a glass faceted bead, slide them into the middle, the both threads should be of the same length.
- 2 Repeat this step continuously by changing in turn the matt and glossy Renaissance beads.
- 3 Take the bracelet length into account, 19 beads have to be crossed within our model.
- 4 Cross through the first glass faceted bead and thus, close the bracelet.
- 5 Thread the Magic-Stretch threads successively through 2 glass faceted beads.
- 6 Now thread through the lateral Renaissance beads.

**7** Cross the second thread.

**8** Thread a glass faceted bead and a Renaissance bead up, and cross through the further glass faceted bead.

**9** Thread through the next lateral Renaissance bead, thread a Renaissance bead up, and cross through a glass faceted bead. Repeat this step continuously.

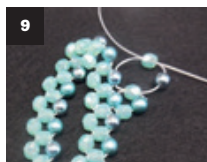

**10** Thread successively through the last lateral Renaissance bead and the overlying glass faceted bead.

**11** Close this row by crossing a Rocaille bead through.

**12** At the beginning of the last row, thread 2 glass faceted beads, and cross through a further one. Then thread through the next lateral Rocaille bead, thread a glass faceted bead up and cross through a further one. Repeat this step continuously.

**13** Thread a glass faceted bead onto the outer Magic-Stretch, and thread successively through the opposite glass faceted bead and Rocaille bead.

**14** At the end, tie the Magic-Stretch threads with a safety knot, sew each end with 2 beads and cut the rests off.
