## Used items:

<b>46 830 000</b>	Transfer "Rub on" Flower Cat Home	1 piece
<b>62 696 000</b>	Wood frame Houses	1 piece
<b>64 649 505</b>	Wood pen blank + plank set, natural	2 pen blanks
<b>36 058 000</b>	Casting mould: Houses	1 piece
<b>36 990 00</b>	Casting powder "Raysin" 200	approx. 150 g
<b>35 077 100</b>	Allround Paint acrylic, snow-white	approx. 1/30 bottle

## Additionally you need:

**33 487 000** Glue Fix pen

Paintbrush, scissors, tweezers, double-sided adhesive tape, mixing vessel, poss. sandpaper, poss. wooden frame to set (item no.62 840 505), poss. Allround Paint acrylic, sandalwood (item no.35 077 506)

## Instructions:

- 1 Mix about 150g of Raysin following the instructions on the package and cast a house using the silicone casting mould Houses.
- 2 After about an hour's drying time, carefully remove the house from the mould. It would be optimal if the house could dry out for another day or two. If necessary, you can sand its edges using sandpaper.
- 3 Cut out the motifs from the transfer foil „Rub on“ Flower Cat Home using scissors.
- 4 Then transfer these very same motifs, one after the other, on the dry house. Next, remove the carrier foil from the motif, place the motif at the designated spot and rub it with a blunt object, such as the handle of a pair of tweezers. Finally, remove the protective foil.
- 5 For the roof, take the two wood pen blanks and glue them to the house using the glue fix pen. Let it dry well out.
- 6 The final stage involves designing the wood frame House. Paint the roof with the white acrylic paint. Then let it dry. Repeat the 3rd and 4th steps and transfer the rub-on motifs onto your house. A pretty decoration would be the designed houses inside a wooden frame. In this particular case, paint the rear side of the frame with sandalwood-coloured acrylic paint.

\* Without drying time
