Cement house „Home“

Used items:

34 153 000	Creative cement	
62 594 000	Wooden frame House 24 × 16 × 8 cm	1 piece
33 836 49	Crepla letters and numbers	1 bag
79 929 000	Foil self adhesive	
30 071 000	Double-sided adhesive tape extra strong	

Additionally you need:

89 530 00	Sandpaper set
37 103 00	Brush flat
61 217 31	Wooden craft sticks

Cooking oil, paper towels, Adhesive tape (for corners and edges),
Cutting knife or scissors

Instructions:

- 1 Mask the bigger inside surfaces of the wooden frame "house" clean and evenly with the self adhesive foil. Carefully mask the corners and edges with the adhesive tape. The wooden house is perfectly prepared, when all the inside surfaces are masked with adhesive foil or tape and the adhesives overlap as little as possible. The more accurate the masking is done, the even the cement house will be at the end.
- 2 Afterwards place the crepla letters "home", with the help of the double sided adhesive tape mirror inverted on the desired location of the wooden frame.
- 3 Now oil all the inside surfaces of the house, including the crepla letters with the cooking oil.
- 4 Fill a plastic bucket with approximately 400 ml of water, afterwards add small portions of approximately 4 kg of creative cement. Mix the mixture with a wooden crafting stick until the mixture is smooth and pourable.
- 5 Pour the mixture into the prepared mold until it reaches the desired height (at best leave 1cm to the top). Let the creative cement rest for 1-2 minutes, while carefully knocking against the mold, so that possible air bubbles can escape.
- 6 Let it fully harden. The curing time can vary, depending on the size and temperature (best let it harden over night). The bowl is completely hardened and can be used after 1-2 days.
- 7 Now the hardened object can be demolded, by turning the mold upside down and carefully knocking it against the table, working with light pressure from the outside (e.g. at the bottom), thereby loosening the cement house from the mold.
- 8 If desired the house can now be sandpapered.
