Wooden box with mosaics

Used items:

62 816 000	Wooden box with lid, FSC MixCredit	1 piece
38 000 102	All-purpose paint, white	1/10 bottle
14 861 999	Silky Glass mosaic mix, matt	1 box
33 385 00	Mosaic glue	1 piece
14 601 00	Joint sealer, white	1 piece

Additionally you need:

61 216 31	Craft wooden sticks
89 288 00	Aluminium ruler, 30 cm
38 032 00	Metal spatula with flexible blade

Washi-tape and cord of your choice
Mixing vessel
Kitchen scales
Sponge
Water

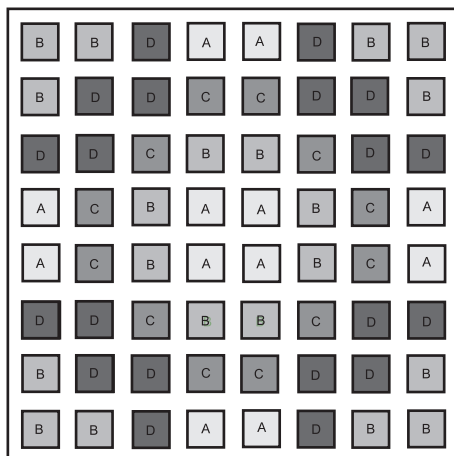

Instructions:

1 First select the desired colours. Then put the single tesserae on the lid of the wooden box according to the pattern. If the pattern matches the one on the template, the single tesserae can be glued on the box with the mosaic glue. Use a pea-sized amount of mosaic glue per tessera. Finally straighten the horizontal and vertical lines out with the aluminium ruler. Allow to dry out overnight.

2 Mix the joint sealer in a mixing ratio of 4:2 (four parts of powder & two parts of water) and stir it vigorously by means of the craft wooden stick. Then spread the joint sealer with the metal spatula into the joints, wipe off the remaining joint sealer with a damp sponge until the tesserae are clean. Let them dry well out.

3 Next, paint the wooden box with the white All-purpose paint and allow it to dry well out. Decorate the wooden box with Washi-tape and the cord.
