Additionally you need:

38 241 00	Painting sponge
37 047 000	Set of brushes kindergarten+school, FSC 100%
89 537 00	Fabric shears

Pencil

← Cutting pattern Ears

Instruction:

- 1 Use a brush to coat half of the metallic leatherette cutting with the textile adhesive and then fold it together in the middle.
- 2 For the coloured bunnies, wipe the raw wood balls with the appropriate paint. When it comes to the standing bunnies, stick the two raw wood balls together with the multi-purpose glue. For the hanging bunnies, knot the decorative string at the two ends together and stick the knot with the multi-purpose adhesive into the larger raw wood ball. Then thread the smaller raw wood ball onto the decorative string.
- 3 Cut out the ears from the metallic fabric using the cutting pattern (create a template). Glue the ears with the textile adhesive into the upper hole of the raw wood ball. Finally, glue the white bobble to the rear side of the bigger raw wood ball by means of the multi-purpose glue.
