JUST CREATE

A wooden crate is repurposed as a planter. It contains two vases: a clear glass one on the left and a light blue ceramic one with a dotted pattern on the right. Both vases hold green plants with small yellow flowers. The crate's front panel features the text "Cafe de Paris" in a white, serif font. To the left of the crate, a pink rose is partially visible. On the right, pink and white confetti is scattered on the surface.

Instructions:

1 In order to make the natural wooden crates looking „old“, dip the slightly damp sponge for painting into the brown Chalky cream wax and wipe it all over the entire surface.

2 Put some Chalky anthracite paint on by using a new clean sponge and wipe it only partially in the damp wax.

3 With the first sponge the colour transitions from brown to anthracite will become blurred. Let it dry.

4 The letterings “Cafe de Paris” and “Fleurs Bistro” are going to be designed with the paint template “French Living”. Therefor, cut out the letterings and fix them with scotch so that they do not slip.

5 For the stencilling, you can use the stencilling brush or a small sponge for painting. It is important that you take just little colour to avoid colour flowing under the stencil.

6 In order to achieve even more the “Used-Look”, you can at the very end wipe or rub the edges and surfaces with coarse sandpaper.

Glass containers

7 For the designing of the glass containers, apply the Chalky paint for glass onto the cleaned glass covering by using a soft flat brush or a small sponge for painting.

8 To paint only a part of the vase, mask it with a masking tape or scotch.

9 When the paint has dried out (at least 1 hour), you can sand over the upper surface with sandingpaper in order to achieve an individual Vintage-Look.

10 The paint can be fixed at 160°C in the oven in order to make the containers rinsable (see the instructions on the label).
