37 055 000 Set of brushes Hobby Kreativ, FSC 100%

Instruction:

- 1 Firstly, paint the upper part with the all-purpose paint in hot-pink colour (or light gray) and let it dry out.
- 2 Then unravel the cut baker's twine intended for the skirt in order to get single threads. Spread the threads out in the centre along a length of 5 cm and glue them onto the satin ribbon with craft glue. Now let the glue applied on skirt dry out and stick it firmly all around the doll.
- 3 Then unravel the brown/white baker's twine. Only the brown yarns must be used for the hair by lining them up next to each other and by fixing them transversely with the parting. Then glue the hair onto doll's head and make two plaits each tied with a small bow (or glue the lined-up brown yarns onto doll's head to create long-lasting hairdo and decorate it with a small hair bow).
- 4 Finally, draw the eyes with the multi-liner marker.
- TIP: You can glue a small wooden clothes peg on the rear side and use it to attach the little doll to various things as a decoration.
