Heart inside a metal ring

Used items:

63 505 000	Raw-wood balls collection box	
	Raw-wood ball, 12 mm ø	24 pieces
25 051 01	Coated metal ring, 15 cm ø, black	1 piece
24 116 505	Paper covered wire, 0.55 mm ø, natural	60 cm

Additionally you need:

89 279 00 Strong side cutter, 15 cm

Instructions:

- 1 Thread the 24 raw-wood balls centrally onto the paper covered wire.
- 2 Pull again the paper covered wire through the last raw-wood ball and twist the paper covered wire firmly together at the raw-wood ball.
- 3 Make the heart shape, so that the heart fits into the metal ring.
- 4 Fasten the finished raw-wood ball heart into the middle of the metal ring.
