Heart-shaped decorative pick

Used items:

- 63 505 000** Raw-wood balls collection box
- Raw-wood ball, 10 mm ø
- Raw-wood ball, 12 mm ø
- 24 058 21** Aluminium wire, 2 mm ø
- 38 867 270** Chalky Finish, pale pink
- 38 867 102** Chalky Finish, white
- 38 867 560** Chalky Finish, light grey
- 37 053 000** Paintbrush set Hobby Kreativ, FSC 100 %

10 pieces
10 pieces
50 cm

Instructions:

- 1** Paint 2 raw-wood balls (10 mm ø and 12 mm ø) with the pale pink Chalky Finish paint. One raw-wood ball (10 mm ø) with the white Chalky Finish paint and one raw-wood ball (12 mm ø) with the light grey Chalky Finish paint. Allow them to dry well out.
- 2** String the raw-wood balls twice alternately, the large one (12 mm ø) and the small one (10 mm ø), on the aluminium wire, so that the painted wooden balls and then the raw-wood balls are strung alternately - large and small.
- 3** When all the wooden balls are threaded, make a heart shape, at about 30 cm from the wire and make sure that the painted raw-wooden balls are on the right heart arc.
- 4** Then bend the aluminium wire at the bottom (leave it about 20 cm long) to form a nice heart-shaped decorative pick.
