30 071 00	Double-sided adhesive tape	
37 104 00	Brush	
27 285 00	Cutter	
89 235 00	Cutting mat	
33 376 00	Mini hot glue gun, low temperature	

Additionally you need:

Tinfoil, paper towel (Zewa), saw, batteries

Instructions:

- Put together the cut to size slats, upright. Let them dry well out.
- Paint the wooden frame and the trees from the outside by means of the white paint Chalky Finish. Then let them to dry thoroughly out. Leave the deer & roe deer in the natural wood hue.
- Paint the wooden lettering „Winter Wonderland“ with the midnight blue paint Chalky Finish. Allow to dry out as well.
- Take the dried-out wooden frame and stick it onto the upper edge of the double-sided adhesive tape and pull off the protective foil from the adhesive tape. Smooth out the 3D effect-foil and press the wooden frame onto it. Cut off the exceeding foil at the outer edge by means of the cutter.
- Lay the crepla sheet on the cutting mat, put the wooden frame over and cut it with the same cutter.
- Attach the painted lettering from the inside to the acrylic glass of the frame using the double-sided adhesive tape.
- Stick the trees with the double-sided adhesive tape, possibly also the deer & roe deer in the box.
- Insert the wooden frame with the glued 3D foil into the frame. Spread out the lights behind it. The battery compartment of the light chain runs outwards.
- Clasp the wooden frame with the double-sided adhesive tape and the cut-out crepla.
- At the end, decorate the wooden frame with the jute cord and the stars.
