Additionally you need:

Foil, cardboard as underlay for spraying

Instruction:

Firstly, prepare a cardboard or a corresponding underlay for spraying. Cover well all sections except the motif you want to spray. Then, according to the instructions, shake well the spray can for 3 minutes and spray at a distance of 30 cm. Let it dry well out.

TIP: It is best to spray outside while paying attention to the wind direction.

All you need is Love

For the desired colour gradient, start by spraying the upper part of the lettering with the copper High gloss Metallic spray, allow it to dry for a while and then spray the lower part with the gold High gloss Metallic spray.

Your hug is my...

In order to achieve the desired colour gradient, start with the anthracite Chalky Finish spray in the middle, let it dry out for a while, then spray the upper part of the lettering with the white Chalky Finish spray and finally, the lower part of the lettering with the stone grey Chalky Finish spray.
