Wooden world map Travels/Goals

Used items:

62 810 000	Wooden world map, FSC 100%	1 piece
62 616 000	Frame out of wooden slats, FSC Mix Credit	1 piece
38 870 552	Chalky Finish cream-wax, dark brown	1/8 can
38 867 572	Chalky Finish, anthracite	1/20 can
38 867 266	Chalky Finish, salmon pink	1/30 can
38 867 264	Chalky Finish, pink	1/30 can
38 867 432	Chalky Finish, jade	1/30 can
38 867 154	Chalky Finish, vanilla	1/30 can
38 867 312	Chalky Finish, lavender	1/30 can
33 297 00	3D-adhesive dots, 13 mm ø	20 dots
69 095 000	Motif-puncher: Tag	1 piece
69 096 000	Motif-puncher: Tag	1 piece
80 298 620	Metallic paper, FSC Mix Credit, brill.gold	1 sheet
60 589 576	Sticker Alphabet + Numbers Classic, black	1 bag
21 056 00	Head pins, 18 mm, brass	18 pieces
16 001 06	Plastic round beads, 4 mm ø, gold	18 pieces
60 693 000	Washi Tape, diagonal stripes	50 cm
29 019 000	Word tape stamp	1 piece
28 383 558	Stamp pad „StazOn“, stone grey	
68 053 616	Cord, 2 mm ø, gold	120 cm
51 517 06	Golden cord, 1 mm ø reel 100 m	150 cm

Additionally you need:

38 241 00	Paint pad
37 103 00	Flat brush, synthetic
89 324 00	Punch pliers, 3 mm ø
89 529 00	Gimlet tool

Instructions:

- 1 Cover the whole frame out of wooden slats with the Chalky Finish dark brown cream-wax by means of the paint pad. Dip the used sponge into the Chalky Finish anthracite paint and thus wipe irregularly in the damp cream-wax. By smooth transitions of the two colours, you can achieve a nice antique wooden look.
 - 2 Take the continents out of the wooden world map and paint them with five different Chalky Finish colours.
 - 3 Make the push pins out of head pins and plastic beads. Insert a bead and affix it at a small spot with some hot glue.
 - 4 Cut the small pennant banners out of Washi tape bonded together by means of scissors.
 - 5 By means of both motif-punchers „Tag“, the metallic paper in brill.gold colour and other optional scrapbooking papers and Washi tapes – you can set the pendant up.
- Mark the locations onto tags by using the word tape stamp.

- 6 It's up to you if the tags or the pennant banners are your destinations. In this example, the pennant banners are the destinations and the tags – the experienced trips.
- 7 In order to insert better the head pins into the wood, use the gimlet.
- 8 Fix the head pins by means of a small hammer.
- 9 Now space and stick the 3D-adhesive dots on the rear side of the painted continent. To place correctly the continents, lay the negative of the wooden world map onto the frame out of wooden slats, and put the parts as a puzzle according to the existing shapes.
- 10 Then remove the negative and fasten the tags by means of the cords.
- 11 Affix the small islands with a hot glue.
- 12 Stick the adhesive letters Travels & Goals on.

World map with golden glowing light

Used items:

62 810 000	Wooden world map, FSC 100%	1 piece
38 867 572	Chalky Finish, anthracite	1/25 can
38 870 552	Chalky Finish cream-wax, dark brown	1/8 can
35 014 616	Extreme Sheen, gold	1/8 bottle
69 137 000	Micro LED-fairy lights with wire	1 piece
33 297 00	3D-adhesive dots, 13mm ø	12 dots

Additionally you need:

38 241 00	Paint pad	1 piece
	Hot glue	
	Buttons cells	2 pieces

Instructions:

- 1 Take the continents carefully out of the wooden world map.
- 2 Dip the damp paint pad firstly into the Chalky Finish dark brown cream-wax and wipe it over the entire wooden surface.
- 3 Dip the used sponge into the Chalky Finish anthracite paint and wipe it irregularly in the damp cream-wax. Use little paint and add always a little water to the sponge in order to avoid thick paint application.
- 4 Paint the rear side of the wooden pad with the Extreme Sheen gold paint, and wipe its edges with the dark brown cream-wax. Let it dry well out.
- 5 Affix firmly the fairy lights at the rear side of the world map along the continents by means of the scotch tape.
- 6 Power the fairy lights with two button cells and fix it then at the edge, so that you can easily switch it ON and OFF.
- 7 Stick two 3D-adhesive dots together, if necessary add later some hot glue. Place the 3d-adhesive dots on the rear side of the world map and fix that way the two pads together.
