Card sealed by waxed Heart

Used items:

73 203 521	Card set B6, FSC Mix Credit, kraft	1 piece
80 021 102	Card A4, plain, FSC Mix Credit, white	16.8 × 4 cm
80 034 680	Letterhead A4, parchment, FSC Mix Credit, nacre	22 × 16.7 cm
55 517 576	Yarn, 1 mm ø, black	1 m
30 068 000	Special double-sided adhesive tape	0.5 m
35 006 616	Acrylic marker, gold	1 piece

Additionally you need:

29 208 103	Sealing wax set Hearts, 2.5 cm ø, metallic white	1 piece
89 379 00	Pointed tip paper scissors	
50 046 000	Paper cutting & folding device	

Instructions:

- 1 Cut a blank measuring about 16.8 × 4 cm from the white A4 card. Cover all its 4 sides with the special double-sided adhesive tape. Then stick this blank to the left inner side of the card. Line up the blank at the right side over a distance of about 2.5 cm and glue it on.
- 2 Cut the black yarn to the length of 1 m and wrap it around the card. Knot the yarn at the front to create a loop.
- 3 Then take the sealing wax set Hearts to melt the sealing wax on a fireproof mat with a long-reach lighter. Turn it carefully in order to achieve a nice result. Drip/drizzle it carefully on the white blank and the loop. Then press the sealing stamp Heart well on. Leave it that way for about 10 seconds to allow the imprint to cool down and dry out properly.
- 4 Use the paper cutting & folding device to cut out a blank from the nacre-coloured letterhead parchment measuring about 22 × 16.7 cm. Fold it carefully in the middle and insert it into the card. Carefully trace the 2 hearts with the golden acrylic marker. Let them dry well out.
