Candle with transfer foil

WWW.RAYHER.COM

Used items:

31 402 00 Pillar candle
31 572 000 Transfer foil A4

1 piece
1/9 sheet

Zusätzlich benötigst du:

89 378 00 Hobby scissors
A container with water

Instructions:

1 Imprint laterally correct the transfer foil onto the shiny side by means of a laser printer/laser copier (the fixing drum temperature max. 170 °C). To control the desired colour depth & sharpness of the motif, a previous printing on a white copy paper is recommended.

2 Cut the printed motif out, lay it printed face-down in water, turn it over and once the motif begins to dissolve, slide it onto the candle.

3 The motif can be adjusted while still being wet, then dab dry with a cloth and let it dry for about 6 hours.

4 After a drying out period, the candle can be lacquered with the candle lacquer 31 159 00.
