Wax melting pot

Instructions:

- 1 For the candle, melt the wax pellets according to the instructions.
- 2 Pour the wax into the candle casting-mould already prepared with the wick. Let it cool well down. If a small crater appears, pour it once again.
- 3 For the decoration of the candle, press the wax motif onto the candle with warm hands. You can also use a hair dryer to warm up the candle and the back of the wax motif. Do the same with the wax decorative strips.
- 4 Stamp afterwards the white card and punch it out.
- 5 Pierce a hole by means of the punch pliers and wrap the pendant with the paper cord around the candle.
