Tip First, strip carefully away all wax strips, then tear one or more. Protect your candle with the candle lacquer. Apply a thin coat of the candle lacquer with a brush, then clean the brush immediately with a brush cleaner. Once the lacquer has dried out, put the rhinestones by means of few adhesive wax dots.

Tip for the candle Lukas Separate the wavy border for "Lukas" from the wax sheet by means of the wax perforating pen and press it by hand's warmth on. Put a piece of 2 cm long border on the rear side of the candle "Lukas" as well. Decorate it with wax strips. Lay the letters for the name with 1 mm wax strips and affix them directly onto the candle.
