Instructions:

- 1 Create the inner ring as follows: thread on a Rocaille bead of 2.2mm, 1 bead and one more Rocaille. Slide them into the middle of the thread and cross through another bead.
- 2 Thread a Rocaille bead on each side and cross through a new bead.
- 3 Repeat this step continuously until 19 beads are threaded. Cross now through the initial bead to form the inner ring.
- 4 Thread 19 more beads between the outer Rocaille. Thread another round with Rocailles. (Thread an eyelet for the earhooks). Finally, sew the threads out completely, to strengthen them further.
- 5 For the necklace, sew successively 2 strands of Delica-Rocailles 1.6 mm onto the tassel. Thread the Rocailles beads on the top of the tassel-head to a length of 2 cm, and thread them directly onto the ring. Sew the remaining thread.
- 6 In a final step, attach the metal link chain to the ring.
