79 704 000	Sizzix Bigz - Set of templates	1 Set
59 396 000	Sizzix Big Shot-Machine	1 piece

Instructions:

Cushion cover

1 For the cushion cover, cut out 62 x 68 cm of the light-red fabric with rhombus pattern (1 cm seam allowance is included).

Pennant

2 Cut out 12 x 20 cm of the unicoloured light-blue cotton fabric.

3 Cut out 12 x 20 cm of the fusible web Vliesofix, lay it with the rough side on the left side of the fabric and iron it 5 seconds without steam.

4 Cut 2 light blue pennants according to the cutting pattern. Repeat the same step for the cream and pastel pink cotton fabrics.

Letters

5 Cut out 8 x 48 cm of the light-red cotton fabric with rhombus pattern.

6 Cut out 8 x 48 cm of the fusible web Vliesofix, lay it with the rough side on the left side of the fabric and iron it 5 seconds without steam.

7 For the 6 letters, cut out 8 x 8 cm large fabric pieces. That way it will be easier to stamp out the individual letters.

8 Stamp out the individual letters by using the Sizzix Bigz template and the Sizzix Big Shot machine.

9 Place the cushion cover right sides together, so that you get a 33 x 62 cm rectangle.

10 Remove the carrier paper of the pennant, lay it on the front side of the cushion cover and iron it 5 seconds without steam.

11 Put the individual pennants onto the outer edge with the narrow spikes stitch (see picture).

12 Sew the cotton yarn with the lock stitch and then sew on a button at both upper corners.

13 Stick on the light-blue Washi Tape with rhombus pattern according to the picture.

14 Place the cushion cover left sides together, so that you get again a 33 x 62 cm rectangle and then sew together the outer edges. Leave some place for the rotating aperture. Turn around the cushion cover, fill it up with some synthetic wool fibers and then sew up the rotating aperture.
