Kneading-cement ball with mosaic

Used items:

| | | |
|-------------------|--------------------------|---------|
| 34 211 000 | Creative kneading-cement | 0.94 kg |
| 33 058 00 | Styrofoam-ball | 1 pc |
| 14 796 999 | Soft Glass-Mosaic stones | |

Additionally you need:

| | |
|-----------------------------------------------------------|------------------|
| 38 798 000 | PET spray bottle |
| Container for kneading of the cement (e.g. bowl with lid) | |
| Disposable gloves | |
| Brush | |
| Small container with water | |
| Stable support e.g. the lid of a plastic bucket | |
| Poss. sandpaper (item 89 530 00) | |

Instructions:

- 1 Always work without fail with the disposable gloves!
- 2 Mix the creative kneading-cement with water in the ratio 9:1 (9 parts of cement : 1 part of water). This corresponds to about 100 ml. Stir the water slowly, gradually add it while constantly kneading. Knead the crumbly mixture with damp disposable gloves (if necessary, moisten several times) until the desired consistency is achieved.

Hint You can mix also, quickly and easily, the kneading-cement in a sealable container. Here also add the water gradually by stirring it constantly, then close the container and shake it well. That way there is less dust and the parts intermix perfectly. Knead more afterwards the crumbly mixture with wet disposable gloves (if necessary, moisten several times) until the mixture is malleable.
- 3 Take some cement between the palms, press it flat and coat around the styrofoam-ball.
- 4 Now you can sculpt the ball with uniform stroking movements by hands until the kneading-cement mixture covers uniformly and smoothly the entire ball. If the cement is too dry for modelling, moisten it lightly with water from a spray bottle. Stroke and rotate the ball with your hands so long until the cement in some way hardens.
- 5 Press slightly the colourful mosaic stones, using pattern of your choice, into the cement.
- 6 Let it dry at least for 1 day. The entire drying period lasts for several days. After about 21 days the object is weatherproof.
