<b>89 381 00</b>	Children's craft scissors

Paintbrush, cress seeds

## Instructions:

- 1 Paint the terracotta pot, below the edge, with the black paint.
- 2 While the paint is drying, cut out the ears from the felt. As for the brown outer ears, the felt must be doubled so that the ears stand upright i.e. cut 4 brown pieces for the ears and glue 2 pieces together for one ear, then repeat the same thing for the second ear. As for the inside part of the ear, you need to cut 2 pieces from the beige felt, then stick the cutouts to the respective brown ear.
- 3 Glue the wiggle eyes and the pompom used as a nose onto the painted terracotta pot. Cut out 2 teeth from the white felt and stick them firmly under the pompom-nose.
- 4 Use the white paint to draw the whiskers as three thin lines on each side. Stick the two ears on the rear edge of the pot and sow the cress seeds inside.
