Gold lamella pendant lamp

WWW.RAYHER.COM

Used items:

62 898 505	Wooden lamella pendant lamp Stockholm	1 piece
23 100 576	Lamp socket pendant luminaire for E27 socket	1 piece
33 487 000	Adhesive pen	1/3 bottle
35 014 616	Extreme Sheen paint, gold	1 bottle
38 000 102	All Purpose paint, white	1/3 bottle

Additionally you need:

37 319 000	Set of brushes „Chalky Basic“	1 piece
	Tinfoil	
	Kitchen roll	
	Light source	

Instructions:

1 First, paint only on one side, with a brush, the individual lamellas and the wooden rings of the lamella lamp with the gold Extreme Sheen paint. Let them dry well out. Then, paint also the other side and let them again dry well out.

2 Use the white All Purpose paint for the narrow edges of the lamellas. Apply a little paint to the brush, so that no excess paint can run off the edge.

3 After drying, put the lamella lamp together. First, attach the lamp socket to the upper wooden ring and then put the painted lamellas together according to the package instructions. If necessary, glue them by means of the adhesive pen and finally screw in a suitable light source.
