Macramé style winter wreath.

Used items:

44 007 212	Macramé yarn, ø 3 mm, coral	about 10 m
64 505 505	Bamboo ring set with cord, ø 12-30 cm, natural	1 piece
46 623 505	Decorative wood stars, FSC Mix Credit, sort., natural	1 piece
35 047 288	Chalky, brick-red	about 2 ml
81 283 06	Mirror foil, gold	
33 384 00	Glue for foil	
12 503 31	Wooden beads FSC 100%, polished, ø 10 mm, natural	2 pieces
62 487 00	Raw wood balls FSC 100%, drilled, ø 15 mm	1 piece
85 493 000	Eucalyptus bunch with paper sleeve	1 piece

Additionally you need:

craft scissors, flat paintbrush, mini hot melt glue gun

Instructions:

1 Cut 9 m of the coral-coloured macramé yarn and fold it in half. String together several reef knots wound around one half of the large bamboo ring. Start from right to left. Heap the knots on the ring so that they cover it well.

2 Shortly before finishing, interlace the small ring. Close the very tip of the twining on the left side with a knot and some hot melt glue. You can hide it decoratively with a wooden star.

3 Paint a few wooden stars with the brick-red Chalky paint. Once the paint is dry, you can put the mirror foil onto the stars using the glue for foil (see Mirror foil instructions).

4 The decorative wooden star set contains a small cord. Use it to thread the stars and wooden beads on and attach it to the small bamboo ring. Use the remaining macramé yarn as a suspension hook for the large ring. As a final step, glue the eucalyptus twig and the remaining stars onto the ring.
