Merry Christmas. Metal ring with paper bag stars.

[WWW.RAYHER.COM](http://WWW.RAYHER.COM)

## Used items:

<b>25 053 01</b>	Metal rings, coated, 25 cm ø, black	1 piece
<b>67 252 576</b>	Mini paper bag XXS, black	2 pieces
<b>67 252 521</b>	Mini paper bag XXS, kraft	5 pieces
<b>67 245 576</b>	Mini paper bag, black	3 pieces
<b>46 562 000</b>	Wood decorative writing "MERRY CHRISTMAS"	1 piece
<b>12 502 31</b>	Wooden beads FSC 100%, 8 mm ø, natural	4 pieces
<b>12 503 31</b>	Wooden beads FSC 100%, 10 mm ø, natural	14 pieces
<b>62 480 00</b>	Raw wood half-ball, undrilled, 6 mm ø	22 pieces
<b>24 042 00</b>	Florist's wire, annealed	4 pieces
<b>33 487 000</b>	Glue-fix pen	1 piece

## Additionally you need:

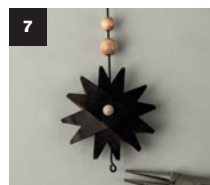

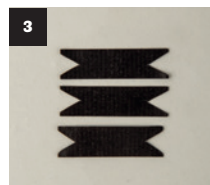

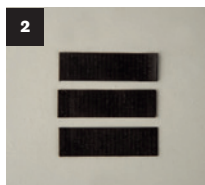

<b>69 155 000</b>	Motif punch: Star, 9 mm ø	1 piece
<b>89 342 00</b>	Wire cutter for jewellery	1 piece
<b>89 340 00</b>	Punches for jewellery	1 piece

Pointed-tip paper scissors, craft cutter, aluminium ruler, mini hot melt glue gun

## Instructions for small stars:

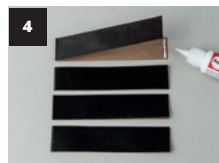

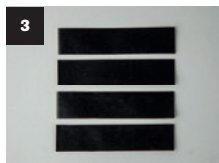

- 1 Cut the flap off the bags.
- 2 Cut 1.5 cm wide strips from the bags:
  - for one 12-pointed star, you'll need 3 strips
  - for one 8-pointed star, you'll need 2 strips
- 3 Cut the strips in the middle of their two sides up to 1 cm deep to obtain triangle-shaped ends (see picture 3).
- 4 Glue a wooden bead of 10 mm in the middle of one of the three strips using the glue-fix pen:
  - for the 12-pointed star, position the openings of the ball borehole towards the points and fix them;
  - for the 8-pointed star, fix the openings of the ball borehole at a 45-degree angle.
- 5 Slide the other two strips over and affix them with the glue-fix pen.
- 6 Stick a half-ball of 6 mm or a punched-out paper star in the middle on both sides.
- 7 String the finished stars and the remaining wooden beads onto a wire and attach it to the metal ring to your liking.

### Instructions for the large star:

- 1 Cut the flap and both sides off the bags.
- 2 Cut 4 strips from the kraft bag (strips - 2 cm wide and 6 cm long).
- 3 Cut strips measuring 4 × 2.5 cm from the black bags.
- 4 Stick the short sides of the black strips together using the glue-fix pen.
- 5 Cut the black strips in the middle of their two sides up to 1 cm deep to obtain triangle-shaped ends (see picture 5). Do the same with the 4 strips out of kraft paper.
- 6 Stick 1 kraft strip in the middle of each of 2 black strips and on their both sides.
- 7 Glue a wooden bead of 10 mm in the middle of one of the black strips, positioning the opening of the ball borehole towards the pointed ends.
- 8 Slide the other 3 black strips over and affix them with glue. Then glue the half-balls and a punched-out paper star on both sides of the star.
- 9 String the finished star and the remaining wooden beads onto a piece of wire and attach it to the metal ring.
