Metal ring „Happy“

Used items:

25 053 22	Metal ring, plated, 25 cm ø, silver	1 piece
24 116 505	Paper wire, 0.55 mm ø, natural	approx. 5 m
55 805 000	Twigs of thuja	1 bunch
55 811 000	Decorative red berries, frosted, 2.5 cm ø	3 pieces
89 545 00	Cropping tongs for jewellery	

Instructions:

- 1** Unwind about 30 cm from the spool of the paper wire and start to form the word „happy“ by hand according to the pattern (see next page).
- 2** Place the shaped word in the metal ring and fasten it around the metal ring through windings on the right & left sides.
- 3** Fasten the twigs of thuja directly on the metal ring, on the right & left sides of the lower area, and fasten the decorative red berries centrally (through the existing wire).
- 4** With the remaining wire, approx. 40 cm, finish the suspension at the top, in the middle of the metal ring. Start at about 8 cm. After about 3 cm of winding, bend the wire upwards, and connect it at the both ends with just a few turns (see detailed photo).
