

HANDICRAFT TIP

Easter in gold and white.
Eggs in the modern chalky look.

Used items:

30 163 000	Styrofoam egg, full-form, ø 8 cm (5 eggs)	1/5 bag
30 162 000	Styrofoam egg, full-form, ø 6 cm (5 eggs)	1.5 bag
85 245 02	Grass fibre, white	approx. 15 g
85 155 00	Feather mix Pepita	10 feathers
38 867 807	Chalky Finish, light topaz	approx. 1/50 paint can
38 867 102	Chalky Finish, white	approx. 1/50 paint can
38 010 000	Crackle varnish	approx. 1/10 bottle
35 014 617	Extrem Sheen, cashmere gold	approx. 1/50 bottle
22 657 000	Application milk	approx. 1/5 bottle
21 715 06	Deco metal flakes	some
38 434 00	Sponge stamp	1 stamp
38 238 000	Structural paste, fine	1/10 box
34 371 102	Chalky Finish Spray, white	approx. 100 ml
65 395 000	Maidenhair vine, decorative twig	1 bag

Additionally you need:

Wooden skewers, paintbrush

Instructions:

1 First of all, layer the twigs in the shape of a nest with a diameter of about 25 cm. Then, spray the nest by means of the Chalky Finish spray and let it dry.

2 Skewer each of the styrofoam eggs on a wooden stick prior to painting. Coat all the eggs with the light topaz Chalky Finish paint and let them dry thoroughly out.

3 To make a dotted egg, apply the white Chalky Finish paint onto the egg using the sponge stamp. Let this egg dry well once again.

4 To achieve the crackle effect, brush quickly the crackle varnish onto the paint-coated eggs. Let these eggs dry well too. Then apply the white Chalky Finish paint onto the dried crackle varnish. This new layer of paint also has to dry well. The paint coat will start cracking during the drying process. Now you can apply the cashmere gold Extrem Sheen paint to the bottom third of the eggs. Let all the eggs dry well.

5 To coat the egg with the structural paste, skewer the styrofoam egg on the wooden stick. Cover the egg entirely with the structural paste using the brush. Trace the lines in the still wet paste with the tip of the paintbrush handle by constantly turning the egg.
