Oval wedding candle with transfer foil

Used items:

31 550 000	Oval candle with 2 wicks	1 piece
31 572 000	Transfer foil A4	1/2 sheet
59 923 000	Tag Maker-Ticket & Curly	1 piece
69 110 000	Embossing-puncher: striped heart	1 piece
80 021 102	Card A4, white	some
57 991 660	A4 craft cardboard	some
55 216 02	Organza ribbon, white	1 m
68 053 606	Cord	1 m

Additionally you need:

- 89 378 00** Hobby scissors
 A container with water
 Laser printer

Instructions:

- 1 Imprint laterally correct the transfer foil onto the shiny side by means of a laser printer/laser copier (the fixing drum temperature max. 170 °C). To control the desired colour depth & sharpness of the motif, a previous printing on a white copy paper is recommended.
- 2 Cut the printed motif out, lay it with the printed side down in water, turn it over and once the motif begins to dissolve, slide it onto the candle.
- 3 The motif can be adjusted while still being wet, then dab dry with a cloth and let it dry for about 6 hours.
- 4 After a drying out period, the candle can be lacquered with the candle lacquer 31 159 00.
- 5 At the end, punch out the tags and hearts, label them and decorate the candle as well the punched parts with the organza ribbon & cord.
