# Paper diamonds

[WWW.RAYHER.COM](http://WWW.RAYHER.COM)

## Used items:

<b>60 996 616</b>	Scrap.paper metallic effect, fine glitter, gold	¼ sheet
<b>60 997 638</b>	Scrap.paper glossy metallic effect, copper	½ sheet
<b>60 997 616</b>	Scrap.paper glossy metallic effect, gold	1 sheet
<b>71 717 000</b>	Transfer paper, DIN A4	

## Additionally you need:

<b>89 288 000</b>	Aluminium ruler
<b>89 577 000</b>	Precision craft cutter
<b>89 378 000</b>	Craft scissors, 17 cm
<b>89 079 000</b>	Bone folder
<b>30 071 000</b>	Double-sided adhesive tape, extra strong
	Pencil

## Instructions:

**1** Copy out the template of the desired diamond to the rear side of the desired scrapbooking paper with metallic effect by using the transfer paper, a pencil and a ruler.

It is best to fix the transfer paper with some sellotape.

**2** Cut out the copied box along the solid line by means of the precision craft cutter or scissors.

**3** Trace the dashed lines by means of the ruler and the bone folder. Now you can fold the diamond.

**4** Stick the diamond together at the flaps with the extra strong double-sided adhesive tape.

Finally, decorate the diamond as you wish.

**TIP:** The diamonds look also good when they are hung up. Moreover, they can be further decorated with beads and tassels.
