

CRAFTING TIP

Let yourself be enchanted.
Atmospheric paper stars
made easy.

Explanation of signs & symbols for all kits:

- Cut
- - - Glue
- × The fixation and the placement of the magnets
- Perforation through the entire bag stack for threading the fairy lights

Used items:

67 247 102	Paper block bottom bags, white	8 pieces
or		
67 276 102	Paper block bottom bags, white	8 pieces
69 176 000	Magnet, 10 mm ø	4 pieces
60 798 102	Blank sticker, round, 12 pcs/sheet, 2.5 cm ø, white	4 pieces
30 068 000	Special double-sided adhesive tape	3 m

Additionally you need:

89 379 00	Pointed tip paper scissors, 11 cm
89 377 00	Craft scissors, 20.5 cm
53 888 000	Fixing clamps, assorted
69 001 000	Hole punch pliers, motif Star, 6 mm ø
89 792 000	Motif-puncher: Star, 1.6 cm ø
69 169 159	Mini LED string of lights w. wire/timer, light yellow

Pencil, rigid cardboard, fine ribbon or nylon threads, sewing needle, batteries

Instruction:

- 1 Copy a template from the cutting pattern (inner side of the craft tip) onto the rigid cardboard and cut it out according to the model.
- 2 Put the template on the paper block bottom bag (bottom side backwards) and fix the cutting pattern with 2 fixing clamps.
- 3 Transfer the template with a pencil onto the paper block bottom bag. Mark the position of the stars and then remove the template. Use the pointed tip paper scissors to cut precisely along the indicated marking (—).
- 4 Punch with the motif-puncher Star, then with the punch pliers Star the marked stars out. Fold back the bottom flap when punching the lateral stars. You need 8 paper block bottom bags for the star. Repeat this step until the specified number of bags has been reached.
- 5 Along the marking ——— (vertically and at the bottom edge of the paper block bottom bag), apply a strip of the special double-sided adhesive tape.
Skip the last paper block bottom bag.
- 6 Stick the paper block bottom bags together, so that a stack is formed.

- 7 Glue a magnet with a white blank sticker (see mark ✕) to the inner side of the first paper block bottom bag. Close the star and hold the counter-magnet at the inner side of the last paper block bottom bag. The counter-magnet is being drawn toward the first one. Then affix firmly the counter-magnet by means of the white blank sticker.
 - 8 For the suspension, pierce a small hole through the star tip with a sewing needle. Thread the desired loop with e.g. a fine ribbon or nylon thread.
 - 9 The star can be illuminated by piercing carefully a hole approx. 3 - 4 mm large at the specified spot (see marking ●) through the entire stack of bags with the pointed tip paper scissors. Thread carefully the mini LED string of lights through the hole and unfold the star. The supply cable should remain outside the star.
- Tip:** To create a special effect, spray the star with the Glitterspray Fine (item no.34 088 616).
