Pinkish soap „Smile!“

[WWW.RAYHER.COM](http://WWW.RAYHER.COM)

### Used items:

<b>34 228 000</b>	Creative-soap	44 g
<b>34 246 264</b>	Soap colour, pink	2-3 drops
<b>34 256 000</b>	Soap fragrance oil, sweet berry	1 drop
<b>34 234 000</b>	Soap casting mould: heart	
<b>34 263 000</b>	Labels "Smile", "washable", "Darl."	

### Additionally you need:

Stove, pot, melting pot, scale, small plastic container, craft stick as a stirrer or teaspoon, tablespoon

### Instructions:

**1** Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).

**2** After a complete melting, stir into the liquid soap the pink soap colour and the fragrance oil sweet berry. Therefore, use a craft stick or a teaspoon.

**3** For the soaps with motif or logo, place upwards the label with the stamping.

**4** To avoid blistering or slipping of the label, use at best a tablespoon with which you fill the casting mould with the liquid soap.

**5** Let the soap dry well out (at least 2-3 hours, ideally one day).

**6** Demould the soap by a slight pressure. Remove the label at best with a pointed object e.g. a needle.

**Tip** Let the finished soap dry at best for 2-3 weeks; the longer it ripens, the firmer becomes.

**7** Depending on the temperature and airiness, the soap can perspire. We therefore recommend to wrap the soap after its demoulding in a transparent foil for flowers (cellophane).

**8** Clean the soap casting mould and the pots with hot water.
