Digital scale
Measuring cup
Small vessel

Instructions:

- 1 Place the label in the casting mould with a motif facing up. Affix it by means of the double-sided adhesive tape.
- 2 Mix the fuchsia-coloured pigment with the Raysin casting powder in a small vessel and blend it evenly. According to the desired colour intensity, you have to use more or less colour pigment.
- 3 Mix the colour-blended casting powder with water. The colourfully stirred Raysin must be immediately poured into the prepared mould.
- 4 After about 90 minutes, the heart can be carefully demoulded. Remove afterwards the label with for e.g. a head pin. Allow the heart to dry completely out for one or more days.
