

**HANDICRAFT TIP**

**GB**

DIY duo-colour look.  
Black & white ridged bowl.

[WWW.RAYHER.COM](http://WWW.RAYHER.COM)

## Used items:

<b>36 155 000</b>	Silicone casting mould Bowl, ridged	1 piece
<b>36 990 00</b>	Casting powder Raysin 200	150 g
<b>34 479 576</b>	Casting powder Raysin 250, black	150 g

## Additionally you need:

Water, mixing vessel  
Sandpaper if necessary

## Instructions:

- 1** In the first place, mix the black casting powder Raysin with water as per instructions.
- 2** Now prepare the casting mould.  
**TIP:** If you bolster the casting mould on one side, you will get a sloping edge. Now fill it with the black casting powder Raysin and let it dry out for about 60 minutes. Leave the silicone mould in the tilted position, though.
- 3** Straighten the casting mould again. This time, mix the white casting powder Raysin with water (as per instructions) and pour it into the mould.
- 4** The bowl can be demoulded after about 60 minutes. Allow your artwork to harden well, for several days at best.

**TIP:** Small imperfections or small areas of unevenness can be quickly and easily fixed with sandpaper.

\* without drying time
