Additionally you need:

24 068 00	Special wire to thread beads	some
33 397 00	Glue for jewellery	some
89 378 00	Craft scissors	
89 342 00	Side cutter for jewellery	
89 541 00	Flat round pliers for jewellery	

Instructions:

- 1 Cut the anthracite leatherette strap to size of 3 × 22 cm, and the pinkish gold one to the same size by means of the scissors.
- 2 Cut the jewellery wire to size of 2 × 22 cm by means of the side cutter. Put at each end of the jewellery wire a crimp bead by means of the flat pliers. Hold all the leatherette straps and the jewellery wires flush and fix them with some wire.
- 3 Now, thread 56 anthracite glass faceted beads of 3 mm ø onto a jewellery wire, and attach at the outer end a crimp bead. The jewellery wire is going to be shortened only at the end. Thread in turn 1 anthracite glass faceted bead of 4 mm ø, and 5 taupe Antique Rocailles of 4 mm ø, in total 7 glass faceted beads and 37 Antique Rocailles, then attach a crimp bead onto the outer end.
- 4 Lay the bracelet round, set the bracelet to the desired length including the clasp.
- 5 Shorten the ends, and fasten the jewellery wires once again with crimp beads, and fuse them all together with some wire.
- 6 At the end, affix all with some jewellery glue to the magnet clasp and let it harden for about 12 hours.
